Early Childhood Screening

for residents of the Batavia Public School District

During the preschool years...

Parents often wonder if their child's development is typical of that seen in same age peers. Developmental screenings are designed to address these concerns and help parents learn more about their child's skills.

Batavia District 101 offers free developmental screenings throughout the school year to assess young children's skills. These screenings are conducted by a team of District Educators and Specialists and are available to **families living within the Batavia School District whose children are 33 months to 5 years of age.**

An Early Childhood Screening assesses your child's development in the areas of:

- Communication
- Gross Motor
- Fine Motor
- Problem-Solving
- Personal-Social

Proof of residency is required prior to scheduling an appointment.

For further information...

Please call:

(630) 937-8000

The screening will take approximately one hour to complete. Afterwards, parents will have the opportunity to discuss the results of the screening as well as any concerns about their child, with a member of the screening team.

- Who do you recommend? Do you have a dentist who makes checkups a breeze? Have you found a recreational activity that has enriched your child's life? Please let us know so we can invite them to exhibit at the fair.
