

Illinois Mathematics and Science Academy

Frightful Fun FUNshop

Registration is open for October's Frightful Fun Funshop complete with creepy-crawly hissing cockroaches and blood-sucking sea creatures.

Spooktacular STEM adventures await for students in grades 3-6. Of course, we'd only do this on Friday the 13th. Join us if you dare!

**Open to ALL students
in grades 3-6!**

When: Friday, October 13th

Where: IMSA Campus
1500 Sullivan Rd
Aurora, IL 60506

Time: 5:30 PM - 8:00 PM

Cost: \$55 (*includes
pizza dinner*)

Funshops are two-hour, hands-on IMSA created STEM experiences.

Grades 3-4

Be prepared to "race" your fears! Creepy crawly hissing cockroaches will become your test subjects as you experiment with different stimuli to see what really makes your cockroach scamper. The big finale will be races to see who has created the most enticing racing strategy for their roach!

Grades 5-6

Vampires are not the only creatures to gorge on blood! Come dissect sea lampreys, ghoulish parasites known to feed off the blood of other animals, to discover how their special anatomy makes blood the perfect meal. Then you will get to experiment with (fake) blood to learn about real blood's cool properties!
