

THE STEM SENIOR PANEL

Presented by

Future Medical Professionals Club

Hear about college selection, the application process, and ask BHS Seniors questions. Our Senior Panel has diverse experiences with the college selection/application process. They will be attending many different schools next fall and entering into many different majors. Each senior has a unique experience getting into college and is willing to share the ups and downs of that experience.

APRIL 18, 7pm in the BHS CAFETERIA

What is Future Medical Professionals Club (FMP)? FMP is a club for Batavia students interested in the medical field. Students in the club will have access to guest speakers and volunteering.

Why the Senior Panel? Because our current seniors believe hearing the point of view of someone who has just gone through the application process to be helpful when looking for and applying to colleges.

APRIL 18 AT 7pm in the BHS CAFETERIA
