ALWAYS LEARNING, ALWAYS GROWING

October 11, 2019

Dear President and Members of the Board of Education for, Citizens and Community Members of Batavia Public School District 101, Batavia, Illinois:

The Illinois School Code requires that all school districts publish a complete set of audited financial statements for each fiscal year. This report fulfills that requirement for the fiscal year ended June 30, 2019.

Responsibility for the accuracy of the data presented and the completeness and fairness of the presentation, including all disclosures, rests with the District. We believe the data as presented is (a) accurate in all material aspects, (b) presented in a manner designed to fairly set forth the financial activity of its various funds, and (c) that all disclosures necessary for public understanding of the District's financial status have been incorporated in the report.

Klein Hall Certified Public Accountants, LLC, have issued an unqualified ("clean") opinion on the District's financial statements for the fiscal year ended June 30, 2019. The independent auditor's report is located at the front of the financial section of this report.

The management's discussion and analysis (MD&A) immediately follows the independent auditor's report and provides a narrative introduction, overview, and analysis of the basic financial statements. The MD&A complements this letter of transmittal and should be read in conjunction with it.

ORGANIZATIONAL PROFILE

Batavia Public School District 101 was founded in 1911 and operates as a Unit District, serving the needs of children in grades pre-kindergarten to 12 and others as required by the Illinois School Code. The Board of Education, consisting of seven members, governs the District. The Board's powers and duties include the authority to adopt, enforce, and monitor all policies for the management and governance of the District's schools. The Board is empowered to levy a property tax on real property located within its boundaries.

The majority of the District is located within the City of Batavia in Kane County, Illinois, and includes small portions of the cities of Aurora, North Aurora, and Geneva. The District encompasses approximately 19 square miles of land, primarily within Batavia Township, and situated approximately 35 miles west of Chicago. The estimated population of the District was 28,150 in 2010.

The District's enrollment for the 2018-19 school year was officially 5,720 students. The District currently operates six elementary schools, one middle school, and one high school. Each of the elementary

 335 W Wilson St
 f ♥/ BPS101

 Batavia, IL 60510
 BPS101.net

schools were built in sister-pairs in 1955-57, 1978, and 2001. Batavia High School was erected in 1965 and Rotolo Middle School was built in 1992.

FINANCIAL STATEMENTS

The Comprehensive Annual Financial Report consists of three sections:

- 1. The *Introductory Section* includes this transmittal letter, the District's organizational chart, and a list of principal officers and officials.
- 2. The *Financial Section* includes the management's discussion and analysis, financial statements and notes, required supplementary information and notes, and the independent auditors' report.
- 3. The *Statistical Section* includes selected unaudited data depicting the financial history of the District, demographics, and other miscellaneous information.

The financial reporting entity of the District is to include the District, as a primary government agency, and therefore includes all funds that are controlled by or dependent on the Board of Education of the District. The District does not exercise oversight responsibility for any other entity, and thus, does not include any other entity as a component unit in this report. Additionally, based on consideration of oversight responsibility, scope of public service, and special financing relationships, the District is an independent entity, not included as a component unit of any other reporting entity.

The general governmental activities include all services provided by the District: included are the general, special revenue, debt service and capital project funds. As such, these activities include all instructional, maintenance, and administrative costs of the District.

Property taxes are the most significant revenue source of the District. Other revenue sources consist of local revenues, exclusive of property taxes, including transportation fees, tuition, student activity fees, and building rentals.

The District is required to undergo an annual, single audit in conformity with the provisions of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Information related to this single audit, including the schedule of expenditures of federal awards and independent auditors' reports on the internal control structure and compliance with applicable laws and regulations, are included in a separate report.

LOCAL ECONOMY AND ECONOMIC OUTLOOK

Batavia is among the oldest communities in the Fox Valley, having been settled in 1833, a full year before the City of Chicago. Once considered on the fringe of the Chicago metro-area, Batavia has matured into one of the premier communities in the western suburbs. Batavia serves as headquarters for many corporations and is home to Fermilab, the nation's top high-energy particle physics laboratory. A major regional shopping center for the metropolitan area lies within the District's boundaries.

Median household income for Batavia is \$92,094, significantly higher than the county and state as a whole. The median home value within for Batavia is \$297,500, up 1.8% over the last year. Development of new residential properties has begun to rebound from the Great Recession; the Batavia City Council has recently approved several residential developments which are expected to bring hundreds of new residents to the community.

Due to its strong and healthy local economy and tax base, the District maintains a credit rating of Aa2 from Moody's Investor Service, which reflects the District's sizable tax base, affluent demographic profile, debt burden, and rapid bond repayment schedule. The District's tax base is diverse: it is comprised of 70% residential, 17% commercial, 12% industrial properties and its total equalized assessed value was \$1.28 billion in 2018, up 3.2% from the prior year.

LONG-TERM FINANCIAL PLANNING AND MAJOR INITIATIVES

The Board's finances have significantly improved over the last four years. The District's financial profile designation from the Illinois State Board of Education has risen from "early warning" status in 2015 to "recognition". Most notably, at fiscal year-end, operational fund balance to revenue ratio has increased to 35% and days cash on hand has increased to 160 from lows of 23% and 127, respectively, in 2014. For the first time in roughly thirty years, the Board did not have the need to issue tax anticipation warrants to manage cash flow deficits in this fiscal year.

The District continues to maintain a multi-year financial projection to facilitate the effective and efficient application of financial resources to enrollment trends, evolving instructional practices, and maintenance of capital assets. The District also maintains a five-year capital improvement plan which serves as its planning document to ensure that its facilities, equipment, and infrastructure are well maintained and operating at peak condition. For fiscal years 2020-2024, the Board anticipates to allocate at least \$2.0 million of the General Fund to capital projects annually.

Enrollment has declined in recent years as fewer kindergarten students have registered, correlated with receding birth rates in Kane County. The projections indicate that enrollment will continue to decline by approximately 2% annually over the next five years.

Over the course of this fiscal year, the District continued to make progress toward implementing its strategic plan through:

- Focusing development and implementation of learning ladders and lesson cycle process for core content areas.
- Improvement of processes for multi-tiered systems of support (MTSS).
- Development of a pedagogical tool box and instructional strategies for educators that incorporate high-quality and job-embedded learning.
- Offering instructional rounds for educators to study and reflect upon pedagogical practices.
- Training staff in the Adaptive Schools program, which include techniques to build leadership at all levels and support effective facilitation of learning for students and adults.

In particular, the District continued to make progress on the strategic goal of personalizing learning for students through:

- Development of a shared vision and common definition of personalized learning.
- Supporting individual educators who were ready to engage in the personalization process through peer coaching.
- Deepening clarity about learning expectations across the curriculum and high levels of collaboration around issues of teaching and learning.
- Highlighting and sharing the successes of educators working on personalization.

Additionally, the Board of Education approved a new collective bargaining agreement with the Batavia Education Association that:

- Eliminated the traditional salary schedule and created a new approach to teacher salaries that is tied to revenues, recognizes years of experience, and incentivizes professional learning and advancement.
- Created BPS University, an internal university for teachers to improve professional practice based on their needs and the learning needs of their students.
- Created a retirement incentive plan tied to pension eligibility.

RELEVANT FINANCIAL POLICIES

As a recipient of federal and state financial assistance, the District is required to implement an adequate internal control structure to ensure compliance with applicable laws and regulations related to those programs. This internal control structure is subject to periodic evaluation by the Administration.

In developing and evaluating the District's accounting system, consideration is given to the adequacy of the internal accounting controls. Such controls are designed to provide reasonable, but not absolute, assurance for the safeguarding of assets against loss from unauthorized use or disposition and the reliability of financial records for preparing financial statements and maintaining accountability for assets. The District's internal controls are designed to safeguard assets and provide reasonable assurance of the proper recording of financial data.

Budgetary control is maintained at line-item levels and built up into program and cost centers before being combined to create fund totals. Actual activity compared to budget is reported to the District's Administrative team and the Board of Education on a monthly basis. This monthly report compares account balances to the annual budget with accumulation to the cost center, fund, and total District levels. Full disclosures are made if extraordinary variances appear during the year.

The District has adopted a legal budget for all its Governmental Funds. The legal level of budgetary control is at the individual fund level. Therefore, actual expenditures for the governmental funds may not legally exceed the total budgeted for such funds. However, under the State Budget Act, expenditures may exceed the budget if additional resources are available to finance such expenditures.

AWARDS AND ACKNOWLEDGEMENTS

During the 2018-19 school year, the District was recognized for excellence in the following ways:

- Two of eight schools were rated by the Illinois State Board of Education as "excellent" on the Illinois School Report card; the remaining were rated as "commendable".
- The National Art Education Association named BHS teacher Dawn Zalkus as the 2019 Illinois Art Educator of the Year.
- For the fifth time, the NAMM Foundation named the District as one of the "Best Communities for Music Education".
- The Batavia High School varsity girls' volleyball team received the American Volleyball Coaches' Association Team Academic Award.
- The BHS track and field team won 3rd place at the state meet for the 4x800 relay.
- The Rotolo Middle School boys and girls cross country teams enjoyed undefeated seasons. In the class 3A IESA state cross country meet, the boys state team finished first and the girls state team finished third.
- Rotolo Middle School was recognized for excellence by the National Forum for the Advancement of Middle School Reform "Schools to Watch" program for its fifth designation.
- It was noted that over 75 alumni of Batavia High School are current employees of the District.

In addition, the Batavia High School Class of 2019 earned the following distinctions:

- A 93% graduation rate
- 88% of students reported that they were attending a college or university in the fall
- 92 were named Illinois State Scholars
- 27 students earned the Seal of Biliteracy
- Enrolled in 529 dual credit courses through Waubonsee Community College
- 50% had a 3.78 or higher GPA

The citizens of Batavia have a long history of extraordinary support and high expectations for their schools. This Comprehensive Annual Financial Report is intended to provide them with a clear and concise understanding of the District's financial condition as of June 30, 2019.

Respectfully submitted,

Sun Hickens

Lisa Hichens Superintendent

Andon Englese

Anton Inglese Chief Financial Officer

FINANCIAL SECTION

Independent Auditor's Report

Board of Education Batavia Public School District 101 Batavia, IL

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Batavia Public School District 101, as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise Batavia Public School District 101's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Batavia Public School District 101's management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of Batavia Public School District 101, as of June 30, 2019, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that management's discussion and analysis and required supplementary information be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Batavia Public School District 101's basic financial statements. The combining and individual fund financial statements and schedules are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual fund financial statements and schedules are the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual fund financial statements and schedules are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on them.

We have also audited, in accordance with auditing standards generally accepted in the United States of America, the District's basic financial statements for the year ended June 30, 2018, which are not presented with the accompanying financial statements, and we expressed unmodified opinions on the respective financial statements of the governmental activities, each major fund, and the aggregate remaining fund information. That audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements as a whole. The schedules of revenues, expenditures and changes in fund balances - budget and actual, related to the 2018 financial statements are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the 2018 basic financial statements. The information has been subjected to the auditing procedures applied in the audit of those basic financial statements and certain additional procedures, including comparing and reconciling such

information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the 2018 schedules of revenues, expenditures and changes in fund balances - budget and actual are fairly stated in material respects in relation to the basic financial statements from which they have been derived.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated October 11, 2019 on our consideration of Batavia Public School District 101's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Batavia Public School District 101's internal control over financial reporting and compliance.

Klein Hall CPAs

Klein Hall CPAs Aurora, Illinois October 11, 2019

BATAVIA PUBLIC SCHOOL DISTRICT 101 Management's Discussion & Analysis

June 30, 2019

The discussion and analysis of Batavia Public School District 101's (the District) financial performance provides review of the overall monetary health of the District and supplies a more in-depth analysis for the year ended June 30, 2019. Readers are encouraged to consider the information presented herein in conjunction with the transmittal letter found in the introductory section and all basic financial statements to enhance their understanding of the District's financial performance.

All amounts, unless otherwise indicated, are expressed in millions of dollars.

FINANCIAL HIGHLIGHTS

- Net position increased from regular activities by \$10.9 or 66.5 percent from 2018. Revenues and expenses increased from the prior year.
- General revenues accounted for \$82.4 in revenue, or 67 percent of all revenues. Program-specific revenues in the form of charges for services and fees and operating grants and contributions accounted for \$40.8, or 3 percent of total revenues of \$123.2.
- The District had \$112.3 in expenses related to government activities. However, only \$28.9 of these expenses were offset by program-specific charges and grants. The general revenues (primarily taxes) were adequate to provide for the cost of these programs.
- Governmental fund balances increased \$6.5, with overall revenues of \$111.5, overall expenditures of \$105.3, and other financing sources of \$0.3.

OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis are intended to serve as an introduction to the District's basic financial statements. The basic financial statements are comprised of three components:

- Government-wide financial statements,
- Fund financial statements, and
- Notes to basic financial statements.

This report also contains other supplementary information in addition to the basic financial statements.

Government-wide financial statements

The government-wide financial statements are designed to provide readers with a broad overview of the District's finances in a manner similar to a private-sector business.

The statement of net position presents information on all of the District's assets and liabilities, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

The statement of activities presents information showing how the District's net position changed during the fiscal year being reported. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods.

The government-wide financial statements present the functions of the District that are principally supported by taxes and intergovernmental revenues (governmental activities). The District has no business-type activities; that is, functions that are intended to recover all or a significant portion of their costs through user fees and charges. The District's governmental activities include instructional services (regular education, special education, and other), supporting services, operations and maintenance of facilities, and transportation services.

Fund financial statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the District can be divided into two categories: governmental funds and fiduciary funds (the District maintains no proprietary funds).

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental funds financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a school district's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental funds balance sheet and the governmental funds statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The District maintains five individual governmental funds. Information is presented separately in the governmental funds balance sheet and in the governmental funds statement of revenues, expenditures, and changes in fund balances for the General Fund (includes the Educational, Operations and Maintenance and Working Cash), Transportation Fund, Municipal Retirement/Social Security Fund, Debt Service Fund, and Capital Projects Fund.

The District adopts an annual budget for each of the funds listed above. A budgetary comparison schedule has been provided for each fund to demonstrate compliance with this budget.

Fiduciary funds are used to account for resources held for the benefit of parties outside the District. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the District's own programs. The accounting used for fiduciary funds is much like that for the government-wide financial statements.

Availability of fund resources

At June 30, 2019 no significant restrictions, commitments, or other limitations significantly affect the availability of fund resources for future use.

Notes to basic financial statements

The notes to the financial statements provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Other information

In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the District's progress in funding its obligation to provide pension benefits to its noncertified employees, and other postemployment benefits provided to retirees.

BATAVIA PUBLIC SCHOOL DISTRICT 101

Management's Discussion & Analysis (Continued) June 30, 2019

GOVERNMENT-WIDE FINANCIAL ANALYSIS

This District's net position as of June 30, 2019 was \$27.2. This was an increase of \$10.9 or 66.9 percent from the prior year.

BATAVIA PUBLIC SCHOOL DISTRICT 101

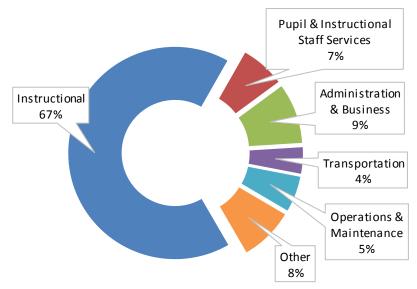

Management's Discussion & Analysis (Continued) June 30, 2019

Total revenues were \$123.2 and exceeded expenses by \$10.9, with the total cost of all programs and services at \$112.3. The District's expenses were predominantly related to the instruction, care, and transportation of pupils (85%). The District's administrative and business expenses amounted to 10% of all costs.

DISTRICT-WIDE EXPENSES BY FUNCTION

FINANCIAL ANALYSIS OF THE DISTRICT'S FUNDS

At the conclusion of the fiscal year, the District's governmental funds held a combined balance of \$34.2. Overall, the net balance increased \$6.5, from \$27.7 to \$34.2.

The General Fund experienced an operating surplus of \$6.0. The non-major governmental funds experienced a combined operating surplus of \$0.3, primarily due to transfers from the General Fund.

GENERAL FUND BUDGETARY HIGHLIGHTS

General Fund budget anticipated an operating surplus of \$0.9. State and local revenues, including onbehalf revenues were \$4.6 higher than anticipated while total expenditures were \$0.3 less than budgeted.

The most significant variance in the budget was due to special education programming, that included an unanticipated refund of prior year expenditures, underspent grant funds, and lower tuition costs for students placed in private facilities. Other variances included on-behalf contributions by the State of Illinois for the Teachers' Retirement System and

MAJOR FUND HIGHLIGHTS

Debt Service Fund

Revenues and expenditures totaled \$9.0 and \$9.3, respectively. The fund realized a surplus of \$0.2 with the net balance of other financing sources, with includes a transfer from the General Fund to pay for technology and facility leases.

CAPITAL ASSETS

By the end of 2019, the District had compiled a total investment of \$170.2 (\$105.6 net of accumulated depreciation) in a broad range of capital assets including land, land improvements, buildings, and equipment. Total depreciation expense for the year was \$3.6. More detailed information about capital assets can be found in Note 3 of the basic financial statements.

| Total | \$ 107.0 | \$ 105.6 |
| | | |

LONG-TERM DEBT OBLIGATIONS

The District retired \$6.8 in bonds in 2019. In accordance with Governmental Accounting Standards Board Statements Nos. 68 and 71, the District is required to record the net pension liability attributable to the District's proportionate share of the Teachers' Retirement System and the Illinois Municipal Retirement System, which totaled \$8.9. In addition, under Governmental Accounting Standards Board Statement 75, the District is required to record the net OPEB liability attributable to the District's proportionate share of the

Teachers' Health Insurance Security fund and the District's postretirement healthcare plan, which totaled \$43.5.

At year-end, the District held \$108.9 in long-term debt, which includes general obligation bonds, pension liabilities, other post-employment (OPEB) liabilities and other outstanding obligations. Other long-term liabilities for compensated absences held steady at \$0.1. The District's debt margin was \$80.3, or 44.2 percent of the legal maximum. More detailed information about long-term debt can be found in Note 4 of the basic financial statements.

| Table 4 Outstanding Long-Term Debt (in millions of dollars) | | | |

| Total | \$ | 115.7 | \$ 108.9 |

FACTORS BEARING ON THE DISTRICT'S FUTURE

At the time these financial statements were prepared and audited, the District was aware of the following circumstances that may significantly affect financial operations in the future:

- The District's primary source of revenue, local property taxes, is capped by law at the consumer price index of the prior year or 5%, whichever is less. Thus, CPI has a direct and profound impact on District's revenue growth.
- Further, the Illinois General Assembly has considered freezing local property taxes for many years. Given that the primary source of the District's new revenue each is derived from property taxes, such an action would likely have a profound impact on the District's financial health.
- The State of Illinois currently assumes a substantial portion of the "normal cost" of annual pension contributions for members of the Teachers' Retirement System. In the event that the General Assembly shifts portions of the annual pension contributions to school districts, the impact upon the District's finances is likely to be significant.
- District enrollment has declined for the last seven years and is projected to continue to decline due to lower birth rates in Kane County.

REQUESTS FOR INFORMATION

This financial report is designed to provide the District's citizens, taxpayers, and creditors with a general overview of the District's finances and to demonstrate the District's accountability for the money it receives. 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Batavia Public School District 101 (the District) is governed by an elected Board of School Inspectors. The accounting policies of the District conform to accounting principles generally accepted in the United States of America (GAAP) as applicable to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. A summary of the significant accounting policies, consistently applied in the preparation of the accompanying financial statements is described below.

a. The Reporting Entity

In evaluating how to define the District for financial reporting purposes, management has considered all potential component units. The decision to include or exclude a potential component unit in reporting entity is made by applying the criteria established by the Governmental Accounting Standards Board (GASB). The definition of a component unit is legally separate organization for which the District is financially accountable and other organizations for which nature and significance of their relationship with the District are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete. The District is financially accountable if it appoints a voting majority of the organization's governing body and (1) it is able to impose its will on that organization or (2) there is a potential for the organization to provide specific financial benefits to, or impose specific financial burdens on, the District. The District also may be financially accountable if an organization is fiscally dependent on the District, regardless of whether the organization has (1) a separately elected governing board, (2) a governing board appointed by a higher level of government or (3) a jointly appointed board. There are no component units, as defined by GASB, which are included in the District's reporting entity. Even though there are local government agencies within the geographic area served by the District, such as the municipality, library and park district, these agencies have been excluded from the report because they are legally separate and the District is not financially accountable for them. The District is not included as a component unit in any other governmental reporting entity, as defined by GASB pronouncements.

b. Fund Accounting

The accounts of the District are organized on the basis of funds. A fund is an independent fiscal and accounting entity with a self-balancing set of accounts. Fund accounting segregates funds according to their intended purpose and is used to aid management in demonstrating compliance with finance-related legal and contractual provisions. The minimum number of funds is maintained consistent with legal and managerial requirements. The following summarizes the fund types used by the District:

GASB statement No. 54 refined the definitions of various governmental funds. These updated definitions are incorporated into the following fund descriptions.

Governmental funds include the following funds:

General Fund - The General Fund, which consists of the legally mandated Educational Account, Operations and Maintenance Account, and Working Cash Account, is used to account for the revenues and expenditures, which are used in providing education in the District. It is used to account for all financial resources except those accounted for in other funds.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Educational Account – These accounts are used for most of the instructional and administrative aspects of the District's operations, as well as providing school lunch services to students. The revenue consists primarily of local property taxes, state government aid and student registration fees and lunch receipts from the District food service program.

Operations and Maintenance Account – These accounts are used for expenditures made for operation, repair and maintenance of District property. Revenue consists primarily of local property taxes.

Working Cash Account – This fund accounts for financial resources held by the District to be used as loans for working capital requirements to any other fund for which taxes are levied. The Working Cash Account was established and has been used to respond to fluctuations in cash flow resulting from unpredictable property tax collections. The earnings of the fund are allowed to be transferred to another fund under the <u>Illinois Compiled Statutes</u>. The principal of the fund, accumulated from bond issues, can be used as a source from which the District borrows money to support temporary deficiencies in other funds, or may be partially or fully transferred to the General Fund's Educational Account, upon Board approval.

Special Revenue Funds – Special Revenue Funds account for the proceeds of specific revenue sources (other than Debt Service and Capital Projects Funds) that are legally restricted to expenditures for specified purposes. The District's Special Revenue Funds are the Transportation and Municipal Retirement/Social Security Funds.

Transportation Fund – This fund accounts for the revenue and expenditures relating to student transportation, both to and from school. Revenue is derived primarily from local property taxes and state reimbursement grants.

Municipal Retirement/Social Security Fund – This fund accounts for the District's portion of the pension contributions to the Illinois Municipal Retirement Fund for noncertified employees and social security contributions for applicable certified and noncertified employees. Revenue to finance the contributions is derived primarily from local property taxes.

Debt Service Funds – Debt service funds are used to account for and report financial resources that are restricted, committed, or assigned to expenditure for principal and interest. Debt service funds should be used to report resources if legally mandated. Financial resources that are being accumulated for principal and interest maturing in future years also should be reported in debt service funds.

Capital Projects Fund – Capital projects funds are used to account for and report financial resources that are restricted, committed, or assigned to expenditure for capital outlays, including the acquisition or construction of capital facilities and other capital assets. Capital projects funds exclude those types of capital-related outflows financed by proprietary funds or for assets that will be held in trust for individuals, private organizations, or other governments.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Fiduciary Fund Types:

Agency Funds - The Agency Funds (Activity Funds) account for assets held by the District in trustee capacity or as an agent for student organizations. These funds are custodial in nature (assets equal liabilities) and do not involve measurement of the results of operations. In accordance with GASB 34, fiduciary funds are not included in the government-wide financial statements.

The District reports the following funds as major governmental funds:

General Fund Debt Service Fund

When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, then unrestricted resources as they are needed.

The District has adopted a policy consistent with GASB Statement No. 34 to net the interfund receivables and payables for combined totals used to determine the major funds. Consequently, the interfund loan balances, which net to zero, are not utilized to determine major funds.

c. Basis of Presentation

Government-wide and fund financial statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the District. For the most part, the effect of interfund activity has been removed from these statements. All of the District's operating activities are considered "governmental activities", that is, activities that are normally supported by taxes and intergovernmental revenues. The District has no operating activities that would be considered "business activities".

The statement of activities demonstrates the degree to which the direct expense of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. Program revenues include 1) charges to students or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements.

Measurement focus, basis of accounting, and financial statement presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting as are the fiduciary fund statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Government fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities in the current period. For this purpose, the District considers revenues to be available if they are collected within 60 days of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences, are recorded only when payment is due.

Interest associated with the current fiscal period is considered to be susceptible to accrual and so has been recognized as a revenue of the current period. All other revenue items are considered to be measurable and available only when the District receives the cash.

Revenues – Exchange and nonexchange transactions

Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the District, available means expected to be received within sixty days of fiscal year-end.

Non-exchange transactions, in which the District receives value without directly giving equal value in return, include property taxes, grants, entitlements and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants, entitlements and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements that specify the year when the resources are required to be used or the fiscal year when use is first permitted, matching requirements, in which the District must provide local resources are provided to the District on a reimbursement basis. On a modified accrual basis, revenue from non-exchange transactions must also be available before it can be recognized.

Under the modified accrual basis, the following revenue sources are considered to be both measurable and available at fiscal year-end: property taxes, interest, grants, entitlements and student fees.

Deferred Outflows/Inflows

Deferred inflows arise when assets are recognized before revenue recognition criteria have been satisfied. On governmental fund financial statements, receivables that will not be collected within the available period have also been reported as deferred revenue.

Property taxes for which there is an enforceable legal claim as of June 30, 2019, but which were levied to finance fiscal year 2020 operations, have been recorded as deferred inflows. Grants and entitlements received before the eligibility requirements are met are also recorded as unearned revenue.

Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time.

Expenses / Expenditures

On the accrual basis of accounting, expenses are recognized at the time they are incurred. The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Allocation of costs, such as depreciation and amortization are not recognized in governmental funds.

d. Deposits and Investments

Under Illinois law, the District is restricted to investing funds in specific types of investment instruments. The following generally represents the types of instruments allowable by state law:

- Securities issued or guaranteed by the United States.
- Interest-bearing accounts of financial institutions insured by the Federal Deposit Insurance Corporation.
- Short-term obligations (less than 180 days) of U.S. corporations with assets over \$500,000,000 rated in the three highest classifications by at least two rating agencies.
- Insured accounts of an Illinois credit union chartered under United States or Illinois law.
- Money market mutual funds with portfolios of securities issued or guaranteed by the United States or agreements to repurchase these same types of obligations.
- Illinois Funds. (A state sponsored investment pool.)
- Repurchase agreements which meet instrument transactions requirements of Illinois law.

e. Capital Assets

Capital assets, which include land, buildings and improvements, and furniture and equipment, are reported in the government-wide financial statements. The District defines capital assets as assets with an initial, individual cost of more than \$5,000 for furniture, equipment, buildings and improvements and an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated acquisition value at the date of donation.

The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend the life of an asset are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during construction is not capitalized. Buildings, improvements and furniture and equipment of the District are depreciated using the straight-line method over the following estimated lives:

| Assets | Years |
|-------------------------------------|-------------|
| Buildings and building improvements | 20-50 years |
| Land improvements | 20 years |
| Furniture, equipment and vehicles | 3-10 years |

f. Long-term obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the statement of net position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the straight-line method which approximates the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as current period expenditures.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

g. Net Position

Government-Wide Statements

Net position is classified and displayed in three components:

1. Net investment in capital assets. Consists of capital assets, including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvements of those assets and adjusted for any deferred inflows and outflows of resources attributable to capital assets and related debt.

- 2. Restricted. Consists of restricted assets reduced by liabilities and deferred inflows or resources related to those assets, with restriction constraints placed on the use either by external groups, such as creditors, grantors, contributors, or laws and regulations of other governments, or law through constitutional provisions or enabling legislation.
- 3. Unrestricted. Net amount of assets, deferred outflows of resources, liabilities, and deferred inflows of resources that are not included in the determination of net investment in capital assets or the restricted component of net position.

It is the District's policy to first use restricted net resources prior to the use of unrestricted net resources when an expense is incurred for purposes for which both restricted and unrestricted net resources are available.

h. Property Taxes

The District must file its tax levy ordinance by the last Tuesday in December of each year. The District's property tax is levied each year on all taxable real property located in the District. The owner of real property on January 1 (the lien date) in any year is liable for taxes of that year.

The Kane County Assessor is responsible for the assessment of all taxable real property within Kane County except for certain railroad property which is assessed directly by the State.

The Property Tax Extension Limitation Law Act (PTELL) limitation is applied in the aggregate to the total levy (excluding certain levies for the repayment of debt). PTELL limits the increase in total taxes billed to the lesser of 5% or the percentage increase in the Consumer Price Index (CPI) for the preceding year. The amount can be exceeded to the extent there is "new growth" in the District's tax base. The new growth consists of new construction, annexations, and tax increment finance district property becoming eligible for taxation.

Property taxes are collected by the Kane County Treasurer who remits to the units their respective shares of the collections. Taxes levied in one year become due and payable in two installments on June 1 and September 1 during the following year. Substantial collections are received by the District in June and September.

The portion of the 2018 property tax levy billed but not received by June 30 is recorded as a receivable. The District considers that the first installment of the 2018 levy is to be used to finance operations in fiscal 2019. The District considers that the second installment of the 2018 levy is to be used to finance operations in fiscal 2020 and has deferred the corresponding receivable.

i. Personal Property Replacement Taxes

Personal property replacement tax revenues are first allocated to the extent required by Illinois law in the Municipal Retirement/Social Security Fund with the balance allocated to funds at the discretion of the District.

j. Encumbrances

Encumbrance accounting, under which purchase orders, contracts, and other commitments for the expenditure of monies are recorded in order to reserve that portion of the applicable appropriation, is employed as an extension of formal budgetary integration in the Governmental Funds. All encumbrances are canceled at year end, and, if necessary, are reinstated at the beginning of the subsequent fiscal year.

k. Other receivables

The District records receivables for items such as special education costs, rent and other amounts due from individuals as "other receivables".

I. Vacation and Sick Leave

Employees who work a twelve month year are entitled to be compensated for vacation time. Vacation time is earned at varying rates according to job positions and years of service, as provided in the employment agreements. Although vacations are usually taken within the year, employees may carry over ½ times their annual vacation leave to the following fiscal year. As of June 30, 2019, the District has recognized a liability in the General Fund for that portion of accumulated unpaid vacation leave and salary related payments that are expected to be paid from current available resources. The accrued unpaid vacation leave at June 30, 2019 in the amount of \$144,991 is reflected as a liability in the Government-wide financial statements.

m. Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net positions of the Teachers' Retirement System of the State of Illinois (TRS) and the Illinois Municipal Retirement Fund (IMRF), together "the Plans," and additions to/deductions from the Plans' fiduciary net positions have been determined on the same basis as they are reported by the Plans. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

n. Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses/expenditures during the reporting period. Actual results could differ from those estimates.

2. CASH AND INVESTMENTS

a. Deposits and Custodial Credit Risk

Investments held by the District which are short-term highly liquid investments having a remaining maturity of one year or less at the time of purchase are reported by the District at amortized cost. All other investments are reported at fair value. Gains or losses on the sale of investments are recognized upon realization. The District has adopted a formal written investment and cash management policy. The institutions in which investments are made must be approved by the Board of School Inspectors.

At June 30, 2019 the carrying amount of the District's deposits, which include both cash and certificates of deposit (including activity funds), totaled \$13,036,803 and the bank balances totaled \$14,153,117. Custodial credit risk is the risk that in the event of a bank failure, the government's deposits may not be returned to it. The District does not have a deposit policy for custodial credit risk. At June 30, 2019, all of the District's deposits were insured or collateralized.

b. Investments

The District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

The District does not report any investments subject to fair value measurement as of June 30, 2019.

The Illinois School District Liquid Asset Fund Plus (ISDLAF+) and Illinois Funds are investment pools created and regulated by the Illinois General Assembly. The fair value of the District's investments in ISDLAF+ and Illinois Funds have been determined using the net asset value (NAV) per share (or its equivalent) of the investments. The NAV of the ISDLAF+ Liquid Class and MAX Class and Illinois Funds are determined as of the close of business on each Illinois banking day. The ISDLAF+ Multi-Class Series invests in high-quality short-term debt instruments (money market instruments), and shares may be redeemed on any Illinois banking day. The ISDLAF+ Term Series invest in high-quality debt instruments, which are generally money market instruments but may include instruments with a maturity over one year, and shares may be redeemed with seven days' advance notice. Illinois Funds invests in high-quality short-term debt instruments (U.S. Treasuries, U.S. agencies, and commercial paper), and shares may be redeemed on demand. There were no known restrictions on redemption of the District's investments as of June 30, 2019.

2. CASH AND INVESTMENTS (Continued)

As of June 30, 2019, the District had the following investments and maturities.

| | Maturities | | | |
|-----------------|---------------|---------------|--------|--|
| | | (in years) | Agency | |
| Investment Type | Fair Value | Less than 1 | Rating | |
| ISDLAF+ | \$ 19,775,319 | \$ 19,775,319 | AAAm | |
| Illinois Funds | 4,365,526 | 4,365,526 | AAAm | |
| Total | \$ 24,140,845 | \$ 24,140,845 | | |

Interest Rate Risk. The District has an investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Credit Risk. The District's investments are rated, as shown above, by the applicable rating agency.

Concentration of Credit Risk. The District places no limit on the amount the District may invest in any one issuer. The above table indicates the percentage of each investment to the total investment of the District.

Foreign Currency Risk. The District held no foreign investments during the fiscal year.

The Illinois School District Liquid Asset Fund is an investment pool. The value of the position in this SEC registered investment pool is the same as the value of the pool shares.

3. CAPITAL ASSETS

A summary of changes in capital assets follows:

| | Ju | Balance une 30, 2018 | Additions | C | Deletions | Jı | Balance une 30, 2019 |
|---|----|-------------------------|-------------------|----|-----------|----|-------------------------|
| Capital assets, not being depreciated: | | | | | | | |
| Land | \$ | 1,178,404 | \$; - | \$ | - | \$ | 1,178,404 |
| Total capital assets not being depreciated | | 1,178,404 | - | | - | | 1,178,404 |
| Capital assets, being depreciated: | | | | | | | |
| Buildings | | 153,183,661 | 1,711,655 | | 32,821 | | 154,862,495 |
| Improvements other than buildings | | 8,474,272 | 207,761 | | 7,077 | | 8,674,956 |
| Equipment | | 5,455,531 | 308,589 | | 298,534 | | 5,465,586 |
| Total capital assets being depreciated | | 167,113,464 | 2,228,005 | | 338,432 | | 169,003,037 |
| Accumulated depreciation for: | | | | | | | |
| Buildings | | 51,592,644 | 3,017,086 | | 3,546 | | 54,606,184 |
| Improvements other than buildings | | 4,869,748 | 320,325 | | 3,892 | | 5,186,181 |
| Equipment | | 4,814,646 | 296,686 | | 298,534 | | 4,812,798 |
| Total accumulated depreciation | | 61,277,038 | 3,634,097 | | 305,972 | | 64,605,163 |
| Total capital assets being depreciated, net | | 105,836,426 | (1,406,092) | | 32,460 | | 104,397,874 |
| Total capital assets, net | \$ | 107,014,830 | \$ (1,406,092) | \$ | 32,460 | \$ | 105,576,278 |

Depreciation expense was charged to functions of the District as follows:

| Instructional Services | |
|--|-----------------|
| Regular programs | \$ 2,528,968 |
| Special programs | 272,557 |
| Supporting Services | |
| Instructional Staff | 2,544 |
| General administration | 9,449 |
| School administration | 208,597 |
| Business | 4,724 |
| Operations and maintenance of facilities | 324,525 |
| Central | 2,544 |
| Other | 2,544 |
| Unallocated depreciation | 277,645 |
| | \$ 3,634,097 |

4. LONG-TERM DEBT

The following is a summary of the components of long-term debt and related transactions of the District for the year ended June 30, 2019:

| | June 30, 2018 | Additions | Reductions | June 30, 2019 | Amount due in one year |
|------------------------------------|------------------|--------------|---------------|------------------|---------------------------|
| Series 2010 General Obligation | | | | | |
| Refunding Bonds | \$ 750,000 | \$- | \$ 750,000 | \$- | \$- |
| Series 2012 General Obligation | | | | | |
| Refunding Bonds | 9,355,000 | - | 115,000 | 9,240,000 | 115,000 |
| Series 2013 General Obligation | | | | | |
| Refunding Bonds | 9,370,000 | - | 125,000 | 9,245,000 | 125,000 |
| Series 2014 General Obligation | | | | | |
| Refunding Bonds | 26,370,000 | - | 5,230,000 | 21,140,000 | 6,280,000 |
| Series 2015 General Obligation | | | | | |
| Refunding Bonds | 9,620,000 | - | 100,000 | 9,520,000 | 100,000 |
| Series 2016 General Obligation | | | | | |
| Refunding Bonds | 4,345,000 | - | 525,000 | 3,820,000 | 535,000 |
| Unamortized Premium | 3,041,400 | - | 574,135 | 2,467,265 | - |
| Total General Obligation Bonds | 62,851,400 | - | 7,419,135 | 55,432,265 | 7,155,000 |
| | | | | | |
| Net Pension Liability - TRS | 6,101,561 | - | 1,883,626.00 | 4,217,935 | - |
| Net Pension Liability - IMRF | 1,424,648 | 3,261,081 | - | 4,685,729 | - |
| Capital Lease | 1,047,340 | 316,490 | 464,614 | 899,216 | 304,620 |
| Compensated Absences (see Note 1L) | 125,306 | 19,685 | - | 144,991 | - |
| Other Post Employment Benefits | 44,152,490 | | 604,084 | 43,548,406 | - |
| Total Long-Term Debt | \$ 115,702,745 | \$ 3,597,256 | \$ 10,371,459 | \$ 108,928,542 | \$7,459,620 |

a. General Obligation Bonds Payable

General Obligation School Building Bonds dated June 15, 2010 were issued in the amount of \$2,870,000. Principal payments are due January 1. Interest payments at rates from 2.4% to 3.1% are due on January 1 and July 1, through the fiscal year ending June 30, 2019.

General Obligation Refunding Bonds dated July 23, 2012 were issued in the amount of \$10,000,000. Principal payments are due January 1. Interest payments at rates from 2.00% to 3.00% are due on July 1 and January 1, through the fiscal year ending June 30, 2025.

General Obligation Refunding Bonds dated February 20, 2013 were issued in the amount of \$9,995,000. Principal payments are due January 1. Interest payments at rates from 2.00% to 2.25% are due on July 1 and January 1, through the fiscal year ending June 30, 2024.

General Obligation Refunding Bonds dated March 3, 2014 were issued in the amount of \$26,470,000. Principal payments are due January 1. Interest payments at rates from 3.00% to 5.00% are due on July 1 and January 1, through the fiscal year ending June 30, 2023.

4. LONG-TERM DEBT (Continued)

General Obligation Refunding Bonds dated March 17, 2015 were issued in the amount of \$9,965,000. Principal payments are due January 1. Interest payments at rates from 2.00% to 2.55% are due on July 1 and January 1, through the fiscal year ending June 30, 2026.

General Obligation Refunding Bonds dated March 1, 2016 were issued in the amount of \$16,165,000. Principal payments are due January 1. Interest payments at rates from 2.00% to 4.00% are due on July 1 and January 1, through the fiscal year ending June 30, 2025.

At June 30, 2019 the annual cash flow requirements of all bonded debt to retirement were as follows:

| Fiscal Year Ending | . | | |
|--------------------|------------------|-----------------|------------------|
| June 30, | Principal | Interest | Total |
| 2020 | \$ 7,155,000 | \$ 1,759,035 | \$ 8,914,035 |
| 2021 | 7,500,000 | 1,355,960 | 8,855,960 |
| 2022 | 7,855,000 | 987,110 | 8,842,110 |
| 2023 | 8,230,000 | 685,303 | 8,915,303 |
| 2024 | 8,455,000 | 465,432 | 8,920,432 |
| 2025 | 8,675,000 | 244,259 | 8,919,259 |
| 2026 | 5,095,000 | 64,961 | 5,159,961 |
| Total | \$ 52,965,000 | \$ 5,562,060 | \$ 58,527,060 |

As of June 30, 2019, the outstanding debt considered defeased is \$39,000,000.

The District is subject to the Illinois Compiled Statutes which limits the amount of bond indebtedness, including the installment contracts, to 13.8% of the most recent available equalized assessed valuation of the District. As of June 30, 2019, the statutory debt limit for the District was \$181,757,327 providing a debt margin of \$131,773,449 after taking into account amounts available in the Debt Service Fund.

4. LONG-TERM DEBT (Continued)

b. Capital Leases

The District has entered into lease agreements as lessee for financing the acquisition of equipment with no down payment. These lease agreements qualify as capital leases for accounting purposes and, therefore, the assets and obligations have been recorded at the present value of the future minimum lease payments as of the inception date. At June 30, 2019, \$1,945,365 of amounts included in capital assets were acquired through capital leases. The obligations for the capital leases will be repaid from the Debt Service Fund. The future minimum lease obligations and the net present value of these minimum lease payments as of June 30, 2019 are as follows:

| Fiscal Year Ending | | | | |
|--------------------|---------------|----|---------|---------------|
| June 30, | Principal | I | nterest | Total |
| 2020 | \$ 304,620 | \$ | 4,236 | \$ 308,856 |
| 2021 | 207,298 | | - | 207,298 |
| 2022 | 207,298 | | - | 207,298 |
| 2023 | 144,000 | | - | 144,000 |
| 2024 | 36,000 | | - | 36,000 |
| | | | | |
| | \$ 899,216 | \$ | 4,236 | \$ 903,452 |

5. EMPLOYEE RETIREMENT SYSTEMS

The retirement plans of the District include the Teachers' Retirement System of the State of Illinois (TRS) and the Illinois Municipal Retirement Fund (IMRF). Most funding for TRS is provided through payroll withholdings of certified employees and contributions made by the State of Illinois on-behalf of the District. IMRF is funded through property taxes and a perpetual lien of the District's corporate personal property replacement tax. Each retirement system is discussed below.

a. Teachers' Retirement System of the State of Illinois (TRS)

Plan Description

The District participates in the TRS. TRS is a cost-sharing, multiple-employer defined benefit pension plan that was created by the Illinois legislature for the benefit of Illinois public school teachers employed outside the city of Chicago. TRS members include all active non-annuitants who are employed by a TRS-covered employer to provide services for which teacher licensure is required. The Illinois Pension Code outlines the benefit provisions of TRS, and amendments to the plan can be made only by legislative action with the Governor's approval. The TRS Board of Trustees is responsible for the System's administration.

TRS issues a publicly available financial report that can be obtained at https://www.trsil.org/financial/cafrs/fy2018; by writing to TRS at 2815 W. Washington, PO Box 19253, Springfield, IL 62794; or by calling (888) 678-3675, option 2.

Benefits Provided

TRS provides retirement, disability, and death benefits. Tier I members have TRS or reciprocal system service prior to January 1, 2011. Tier I members qualify for retirement benefits at age 62 with five years of service, at age 60 with 10 years, or age 55 with 20 years. The benefit is determined by the average of the four highest years of creditable earnings within the last 10 years of creditable service and the percentage of average salary to which the member is entitled. Most members retire under a formula that provides 2.2 percent of final average salary up to a maximum of 75 percent with 34 years of service. Disability and death benefits are also provided.

Tier II members qualify for retirement benefits at age 67 with 10 years of service, or a discounted annuity can be paid at age 62 with 10 years of service. Creditable earnings for retirement purposes are capped and the final average salary is based on the highest consecutive eight years of creditable service rather than the last four. Disability provisions for Tier II are identical to those of Tier I. Death benefits are payable under a formula that is different from Tier I.

Essentially all Tier I retirees receive an annual 3 percent increase in the current retirement benefit beginning January 1 following the attainment of age 61 or on January 1 following the member's first anniversary in retirement, whichever is later. Tier II annual increases will be the lesser of three percent of the original benefit or one-half percent of the rate of inflation beginning January 1 following attainment of age 67 or on January 1 following the member's first anniversary in retirement, whichever is later.

Public Act 100-0023, enacted in 2017, creates an optional Tier III hybrid retirement plan, but it has not yet gone into effect. The earliest possible implementation date is July 1, 2020. Public Act 100-0587, enacted in 2018, requires TRS to offer two temporary benefit buyout programs that expire on June 30, 2021. One program allows retiring Tier 1 members to receive a partial lump-sum in exchange for accepting a lower, delayed annual increase. The other allows inactive vested Tier 1 and 2 members to receive a partial lump-sum payment in lieu of a retirement annuity. Both programs will begin in 2019 and will be funded by bonds issued by the state of Illinois.

Contributions

The state of Illinois maintains the primary responsibility for funding TRS. The Illinois Pension Code, as amended by Public Act 88-0593 and subsequent acts, provides that for years 2010 through 2045, the minimum contribution to the System for each fiscal year shall be an amount determined to be sufficient to bring the total assets of the System up to 90% of the total actuarial liabilities of the System by the end of fiscal year 2045.

Contributions from active members and TRS contributing employers are also required by the Illinois Pension Code. The contribution rates are specified in the pension code. The active member contribution rate for the year ended June 30, 2018, was 9.0 percent of creditable earnings. The member contribution, which may be paid on behalf of employees by the employer, is submitted to TRS by the employer.

On-behalf contributions to TRS. The State of Illinois makes employer pension contributions on-behalf of the District. For the year ended June 30, 2019, State of Illinois contributions recognized by the District were based on the State's proportionate share of the collective net pension liability associated with the District, and the District recognized revenue and expenditures of \$16,865,896 in pension contributions from the State of Illinois.

2.2 formula contributions. The District contributes 0.58% of total creditable earnings for the 2.2 formula change. This rate is specified by statute. Contributions for the year ended June 30, 2019 were \$227,073, and are deferred because they were paid after the June 30, 2018 measurement date.

Federal and special trust fund contributions. When TRS members are paid from federal and special trust funds administered by the District, there is a statutory requirement for the District to pay an employer pension contribution from those funds. Under Public Act 100-0340, the federal and special trust fund contribution rate is the total employer normal cost beginning with the year ended June 30, 2019.

For the year ended June 30, 2019, the employer pension contribution was 9.85% of salaries paid from federal and special trust funds. For the year ended June 30, 2019, salaries totaling \$327,853 were paid from the federal and special trust funds that required employer contributions of \$32,294. These contributions are deferred because they were paid after the June 30, 2018 measurement date.

Employer retirement cost contributions. Under GASB Statement No. 68, contributions that an employer is required to pay because of a TRS member retiring are categorized as specific liability payments. The District is required to make a one-time contribution to TRS for members granted salary increases over 6 percent if those salaries are used to calculate a retiree's final average salary. Additionally, beginning with the year ended June 30, 2019, employers will make a similar contribution for salary increases over 3 percent if member are not exempted by current collective bargaining agreements or contracts.

A one-time contribution is also required for members granted sick leave days in excess of the normal annual allotment if those days are used as TRS service credit. For the year ended June 30, 2019, the employer paid \$15,164 to TRS for employer contributions due on salary increases in excess of 6 percent, \$5,925 for salary increases in excess of 3 percent and no payments for sick leave days granted in excess of the normal annual allotment.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2019, the District reported a liability for its proportionate share of the net pension liability (first amount shown below) that reflected a reduction for State pension support provided to the District. The State's support and total are for disclosure purposes only. The amount recognized by the District as its proportionate share of the net pension liability, the related State support, and the total portion of the net pension liability that was associated with the District were as follows:

| District's proportionate share of the net pension liability | \$ 4,217,935 |
|---|-------------------|
| State's proportionate share of the net pension liability | |
| associated with the District | 288,946,263 |
| Total | \$ 293,164,198 |

The net pension liability was measured as of June 30, 2018, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2017 and rolled forward to June 30, 2018. The District's proportion of the net pension liability was based on the District's share of contributions to TRS for the measurement year ended June 30, 2018, relative to the contributions of all participating TRS employers and the state during that period. At June 30, 2018, the District's proportion was 0.00541%, which was a decrease of 0.00258% from its proportion measured as of June 30, 2017.

For the year ended June 30, 2019, the District recognized pension expense of \$27,136,817 and revenue of \$27,136,817 for support provided by the state. At June 30, 2019, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

| | Deferred Outflows of | | In | eferred flows of |
|---|-------------------------|----------|------|---------------------|
| | R | esources | Re | sources |
| Difference between expected and actual experience | \$ | 84,772 | \$ | 920 |
| Changes in assumptions | | 184,997 | | 119,545 |
| Net difference between projected and actual | | | | |
| earnings on pension plan investments | | - | | 12,915 |
| Changes in proportion and differences between District | | | | |
| contributions and proportionate share of contributions | | 154,512 | 2 | 2,209,083 |
| District contributions subsequent to the measurement date | | 280,456 | | - |
| | | | | |
| Total | \$ | 704,737 | \$ 2 | 2,342,463 |
| | - | | | |

\$280,456 reported as deferred outflows of resources related to pensions resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2020. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

| Year Ending June 30 | C | et Deferred Dutflows of Resources |
|------------------------|----|---|
| 2019 | \$ | (519,085) |
| 2020 | | (356,826) |
| 2021 | | (517,496) |
| 2022 | | (369,562) |
| 2023 | | (155,213) |
| Thereafter | | - |
| Total | \$ | (1,918,182) |

Actuarial Assumptions

The total pension liability in the June 30, 2018 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

| Inflation | 2.50 percent |
|---------------------------|---|
| Salary increases | varies by amount of service credit |
| Investment rate of return | 7.00 percent, net of pension plan investment expense, including inflation |

In the June 30, 2018 actuarial valuation, mortality rates were based on the RP-2014 White Collar Table with appropriate adjustments for the TRS experience. The rates are based on a fully-generational basis using projection table MP-2017. In the June 30, 2017 actuarial valuation, mortality rates were also based on the RP-2014 White Collar Table with appropriate adjustments for TRS experience. The rates were used on a fully-generational basis using projection table MP-2014.

The long-term (20 year) expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class that were used by the actuary are summarized in the following table:

| Asset Class | Target Allocation | Long-Term Expected Real Rate of Return |
|----------------------------------|-------------------|---|
| | | |
| U.S. equities large cap | 15.0% | 6.7% |
| U.S. equities small/mid cap | 2.0% | 7.9% |
| International equities developed | 13.6% | 7.0% |
| Emerging market equities | 3.4% | 9.4% |
| U.S. bonds core | 8.0% | 2.2% |
| U.S. bonds high yield | 4.2% | 4.4% |
| International debt developed | 2.2% | 1.3% |
| Emerging international debt | 2.6% | 4.5% |
| Real estate | 16.0% | 5.4% |
| Commodities (real return) | 4.0% | 1.8% |
| Hedge funds (absolute return) | 14.0% | 3.9% |
| Private Equity | 15.0% | 10.2% |
| - | 100% | _ |

Discount rate

At June 30, 2018, the discount rate used to measure the total pension liability was 7.0 percent, which was the same as the June 30, 2017 rate. The projection of cash flows used to determine the discount rate assumed that employee contributions, employer contributions, and state contributions will be made at the current statutorily-required rates.

Based on those assumptions, TRS's fiduciary net position at June 30, 2018 was projected to be available to make all projected future benefit payments of current active and inactive members and all benefit recipients. Tier I's liability is partially funded by Tier II members, as the Tier II member contribution is higher than the cost of Tier II benefits. Due to this subsidy, contributions from future members in excess of the service cost are also included in the determination of the discount rate. All projected future payments were covered, so the long-term expected rate of return on TRS investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the employer's proportionate share of the net pension liability to changes in the discount rate

The following presents the District's proportionate share of the net pension liability calculated using the discount rate of 7.00% as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.00%) or 1-percentage-point higher (8.00%) than the current rate:

| | 1% | 1% Decrease (6.00%) | | Current scount Rate (7.00%) | 1' | % Increase (8.00%) |
|---|----|------------------------|----|-----------------------------------|----|-----------------------|
| District's proportionate share of the net pension liability | \$ | · · · · · | \$ | 4,217,935 | \$ | 3,448,902 |

Detailed information about the TRS's fiduciary net position as of June 30, 2018 is available in the separately issued TRS Comprehensive Annual Financial Report.

b. Illinois Municipal Retirement Fund (IMRF)

Plan Description and Benefits

The District's defined benefit pension plan for Regular employees provides retirement and disability benefits, post retirement increases, and death benefits to plan members and beneficiaries. The District's plan is affiliated with the Illinois Municipal Retirement Fund (IMRF), an agent multiple-employer plan. Benefit provisions are established by statute and may only be changed by the General Assembly of the State of Illinois. IMRF issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained online at www.imrf.org.

All employees (other than those covered by TRS) hired in positions that meet or exceed the prescribed annual hourly standard must be enrolled in IMRF as participating members. IMRF provides two tiers of pension benefits. Employees hired prior to January 1, 2011, are eligible for Tier 1 benefits. For Tier 1 employees, pension benefits vest after eight years of service. Participating members who retire at age 55 (reduced benefits) or after age 60 (full benefits) with eight years of credited service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1 2/3% of their final rate of earnings, for each year of credited service up to 15 years, and 2% for each year thereafter. Employees hired on or after January 1, 2011, are eligible for Tier 2 benefits. For Tier 2 employees, pension benefits vest after 10 years of service. Participating members who retire at age 62 (reduced benefits) or after age 67 (full benefits) with 10 years of credited service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1 2/3% of their final rate of earnings, for each year of credited service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1 2/3% of their final rate of earnings, for each year of credited service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1 2/3% of their final rate of earnings, for each year of credited service up to 15 years, and 2% for each year thereafter.

Plan Membership

As of June 30, 2019, the following employees were covered by the benefit terms:

| Inactive employees or beneficiaries currently receiving benefits | 198 |
|--|-----|
| Inactive employees entitled to but not yet receiving benefits | 210 |
| Active employees | 198 |
| Total | 606 |

Contributions

As set by statute, Regular plan members are required to contribute 4.50% of their annual covered salary. The statute requires employers to contribute the amount necessary, in addition to member contributions, to finance the retirement coverage of its own employees. The District's actual contribution rate for calendar years 2018 and 2019 were 10.96% and 9.51%, respectively, of covered payroll. The District contributes for disability benefits, death benefits and supplemental retirement benefits, all of which are pooled at the IMRF level. Contribution rates for disability and death benefits are set by the IMRF Board of Trustees, while the supplemental retirement benefits rate is set by statute.

Net Pension Liability

The District's net pension liability was measured as of December 31, 2018, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date.

| Total pension liability/(asset) | \$ 26,997,494 |
|---------------------------------|------------------|
| Plan fiduciary net position | (22,311,765) |
| Net pension liability/(asset) | \$ 4,685,729 |

Actuarial Assumptions

The total pension liability in the December 31, 2018 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

| Actuarial cost method Asset valuation method Price inflation Salary increases Investment rate of return Retirement age | Entry Age Normal Market Value of Assets 2.50% 3.39% to 14.25%, including inflation 7.25% Experience-based table of rates that are specific to the type of |
|---|---|
| - | eligibility condition. Last updated for the 2017 valuation pursuant to an experience study of the period 2014-2016. |
| Mortality | For non-disabled retirees, an IMRF specific mortality table was used with fully generational projection scale MP-2017 (base year 2015). The IMRF specific rates were developed from the RP- 2014 Blue Collar Health Annuitant Mortality Table with adjustments to match current IMRF experience. For disabled retirees, an IMRF specific mortality table was used with fully generational projection scale MP-2017 (base year 2015). The IMRF specific rates were developed from the RP-2014 Disabled Retirees Mortality Table applying the same adjustment that were applied for non-disabled lives. For active members, an IMRF specific mortality table was used with fully generational projection scale MP-2017 (base year 2015). The IMRF specific rates were developed from the RP-2014 Employee Mortality Table with adjustments to match current IMRF experience. |

Other Information: There were no benefit changes during the year.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table:

| | | Long-Term Expected |
|------------------------|-------------------|---------------------|
| Asset Class | Target Allocation | Real Rate of Return |
| | | |
| Domestic equities | 37.0% | 7.15% |
| International equities | 18.0% | 7.25% |
| Fixed income | 28.0% | 3.75% |
| Real estate | 9.0% | 6.25% |
| Alternatives | 7.0% | 3.20-8.50% |
| Cash equivalents | 1.0% | 2.50% |
| | 100.0% | |

Single Discount Rate

The Single Discount Rate used to measure the total pension liability for IMRF was 7.25%. The projection of cash flows used to determine the discount rate assumed that employee contributions will be made at the current contribution rate and that District contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. The Single Discount Rate reflects:

- 1. The long-term expected rate of return on pension plan investments (during the period in which the fiduciary net position is projected to be sufficient to pay benefits), and
- 2. The tax-exempt municipal bond rate based on an index of 20-year general obligation bonds with an average AA credit rating (which is published by the Federal Reserve) as of the measurement date (to the extent that the contributions for use with the long-term expected rate of return are not met).

For the purpose of the most recent valuation, the expected rate of return on plan investments is 7.25%, the municipal bond rate is 3.71%, and the resulting single discount rate is 7.25%.

Changes in Net Pension Liability

| | Total Pension Liability (A) | | Plan Fiduciary Net Position (B) | | Net Pension Liability (A) - (B) | |
|---|-----------------------------------|-------------|---------------------------------------|-------------|---------------------------------------|-----------|
| Balances at December 31, 2017 | \$ | 24,743,275 | \$ | 23,318,627 | \$ | 1,424,648 |
| Changes for the year: | | | | | | |
| Service Cost | | 607,996 | | - | | 607,996 |
| Interest on the Total Pension Liability | | 1,832,453 | | - | | 1,832,453 |
| Changes of Benefit Terms | | - | | - | | - |
| Differences Between Expected and Actual | | - | | - | | - |
| Experience of the Total Pension Liability | | 300,111 | | - | | 300,111 |
| Changes of Assumptions | | 742,797 | | - | | 742,797 |
| Contributions - Employer | | - | | 649,036 | | (649,036) |
| Contributions - Employees | | - | | 278,327 | | (278,327) |
| Net Investment Income | | - | | (1,261,956) | | 1,261,956 |
| Benefit Payments, including Refunds | | - | | - | | - |
| of Employee Contributions | | (1,229,138) | | (1,229,138) | | - |
| Other (Net Transfer) | | - | | 556,869 | | (556,869) |
| Net Changes | | 2,254,219 | | (1,006,862) | | 3,261,081 |
| Balances at December 31, 2018 | \$ | 26,997,494 | \$ | 22,311,765 | \$ | 4,685,729 |

Sensitivity of the Net Pension Liability to Changes in the Discount Rate

The following presents the District's proportionate share of the net pension liability calculated using the discount rate of 7.25%, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.25%) or 1-percentage-point higher (8.25%) than the current rate:

| | 1% Decrease (6.25%) | | Current Discount Rate (7.25%) | | 1% Increase (8.25%) | |
|-------------------------------|------------------------|-----------|-------------------------------------|-----------|------------------------|-----------|
| Net pension liability (asset) | \$ | 8,049,460 | \$ | 4,685,729 | \$ | 1,928,683 |

Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

For the year ended June 30, 2019, the District recognized pension expense of \$452,706. At June 30, 2019, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

| | C | Deferred Outflows of Resources | Deferred Inflows of Resources |
|--|----|--------------------------------------|-------------------------------------|
| Difference between expected and actual experience | \$ | 216,216 | \$ 73,626 |
| Changes in assumptions | | 503,786 | 303,997 |
| Net difference between projected and actual | | | |
| earnings on pension plan investments | | 2,732,478 | 1,266,655 |
| Total deferred amounts to be recognized in pension expense in future periods | | 3,452,480 | 1,644,278 |
| Contributions subsequent to the measurement date | | 297,993 | - |
| Total | \$ | 3,750,473 | \$ 1,644,278 |

Amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

| Year Ending December 31 | 0 | t Deferred utflows of esources |
|----------------------------|----|--------------------------------------|
| 2019 | \$ | 525,544 |
| 2020 | | 460,534 |
| 2021 | | 218,041 |
| 2022 | | 604,083 |
| 2023 | | - |
| Thereafter | | - |
| Total | \$ | 1,808,202 |

6. OTHER POST-EMPLOYMENT BENEFITS

a. Teacher Health Insurance Security (THIS)

Plan Description

The District participates in the THIS. The THIS is a cost-sharing, multiple-employer defined benefit post-employment healthcare plan (OPEB) that was established by the Illinois legislature for the benefit of Illinois public school teachers employed outside the City of Chicago. The THIS members are retirees of public schools who were certified educators or administrators. Eligibility is currently limited to former full-time employees, and others who were not full-time employees that meet certain requirements, and their dependents. The State Employees Group Insurance Act of 1971 (5 ILCS 375/6.5) (SEGIA) establishes the eligibility and benefit provisions of the plan.

The THIS issues a publicly available financial report that can be obtained at the website of the Illinois Auditor General: <u>https://www.auditor.illinois.gov/Audit-Reports/ABC-List.asp</u>. The current reports are listed under "Central Management Services"; prior reports are available under "Healthcare and Family Services".

Benefits Provided

The THIS Fund provides medical, prescription, and behavioral health benefits, but it does not provide vision, dental or life insurance benefits to annuitants of the Teachers' Retirement System (TRS). Annuitants not enrolled in Medicare may participate in the state administered participating provider option plan or choose from several managed care options. Annuitants who were enrolled in Medicare Parts A and B may be eligible to enroll in Medicare Advantage Plans.

Amendments to the plan can be made only by legislative action with the Governor's approval. Effective July 1, 2012, in accordance with Executive Order 12-01, the plan is administered by the Illinois Department of Central Management Services (CMS) with the cooperation of TRS.

Contributions

The SEGIA requires that all active contributors to the TRS, who are not employees of a department, make contributions to the plan at a rate of 1.24% of salary and for every employer of a teacher to contribute an amount equal to 0.92% of each teacher's salary. Additionally, the SEGIA requires the State to match the employees' contribution on-behalf of the employer. The Department determines, by rule, the percentage required, which each year shall not exceed 105% of the percentage of salary actually required to be paid in the previous fiscal year. In addition, under the State Pension Funds Continuing Appropriations Act (40 ILCS 15/1.3), there is appropriated, on a continuing annual basis, from the General Revenue Fund, an account of the General Fund, to the State Comptroller for deposit in the THIS, an amount equal to the amount certified by the Board of Trustees of TRS as the estimated total amount of contributions to be paid under 5 ILCS 376/6.6(a) in that fiscal year.

The SEGIA requires that the Department's Director determine the rates and premiums of annuitants and dependent beneficiaries and establish the cost-sharing parameters, as well as funding. Member premiums are set by this statute, which provides for a subsidy of either 50% or 75%, depending upon member benefit choices. Dependents are eligible for coverage, at a rate of 100% of the cost of coverage.

On-behalf contributions to THIS. The state of Illinois makes employer retiree health insurance contributions on behalf of the District. State contributions are intended to match contributions to THIS Fund from active members that were 1.24% of pay during the year ended June 30, 2019. State of Illinois contributions were \$485,466, and the district recognized revenue and expenditures of this amount during the year.

Employer contributions to THIS Fund. The District also makes contributions to THIS Fund. The District THIS Fund contribution was 0.92% during the year ended June 30, 2019. For the year ended June 30, 2019, the District paid \$360,185 to the THIS Fund, which was 100 percent of the required contribution. These contributions are deferred because they were paid after the June 30, 2018 measurement date.

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

At June 30, 2019, the District reported a liability for its proportionate share of the net OPEB liability. The State's support and total are for disclosure purposes only. The amount recognized by the District as its proportionate share of the net OPEB liability, the related State support, and the total portion of the net OPEB liability that was associated with the District were as follows:

| District's proportionate share of the net OPEB liability | \$ 43,095,881 |
|--|----------------|
| State's proportionate share of the net OPEB liability | |
| associated with the District | 57,868,349 |
| Total | \$ 100,964,230 |

The net OPEB liability was measured as of June 30, 2018, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of June 30, 2017 and rolled forward to June 30, 2018. The District's proportion of the net OPEB liability was based on the District's share of contributions to TRS for the measurement year ended June 30, 2018, relative to the projected contributions of all participating TRS employers and the state during that period. At June 30, 2018, the District's proportion was 0.163577%, which was a decrease of 0.004778% from its proportion measured as of June 30, 2017.

For the year ended June 30, 2019, the District recognized pension expense of \$2,124,897 and revenue of \$2,124,897 for support provided by the state.

At June 30, 2019, the District reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

| | Ľ | Deferred | | Deferred |
|---|----|------------|----|------------|
| | Oı | utflows of | | Inflows of |
| | Re | esources | F | Resources |
| Difference between expected and actual experience | \$ | - | \$ | 154,629 |
| Changes in assumptions | | - | | 6,275,485 |
| Net difference between projected and actual | | | | |
| earnings on OPEB plan investments | | - | | 1,323 |
| Changes in proportion and differences between District | | | | |
| contributions and proportionate share of contributions | | 67 | | 1,243,266 |
| | | | | |
| Total deferred amounts to be recognized in | | | | |
| OPEB expense in future periods | | 67 | | 7,674,703 |
| | | | | |
| District contributions subsequent to the measurement date | | 360,185 | | - |
| | | | | |
| Total | \$ | 360,252 | \$ | 7,674,703 |

\$360,185 reported as deferred outflows of resources related to OPEB resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net OPEB liability in the year ended June 30, 2020. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

| Year Ending June 30 | Net Deferred Inflows of Resources |
|------------------------|---|
| 2018 | \$ (1,178,970) |
| 2019 | (1,178,970) |
| 2020 | (1,178,970) |
| 2021 | (1,178,970) |
| 2022 | (1,178,793) |
| 2023 | (1,178,793) |
| Thereafter | (601,170) |
| | |
| Total | \$ (7,674,636) |

Actuarial Valuation Method

The actuarial valuation was based on the Entry Age Normal cost method. Under this method, the normal cost and actuarial accrued liability are directly proportional to the employee's salary. The normal cost rate equals the present value of future benefits at entry age divided by the present value of future salary at entry age. The normal cost at the member's attained age equals the normal cost rate at entry age multiplied by the salary at attained age. The actuarial accrued liability equals the present value of benefits at attained age less present value of future salaries at attained age multiplied by normal cost rate at entry age.

Actuarial Assumptions

The total OPEB liability in the June 30, 2018 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

| Inflation Salary increases | 2.75% Depends on service and ranges from 9.25% at 1 year of service to 3.25% at 20 or more years of service. Salary increase includes a 3.25% wage inflation assumption, |
|-------------------------------|---|
| Investment rate of return | 0.00%, net of OPEB plan investment expense, including inflation. |
| Healthcare cost trend rates | Actual trend used for fiscal year 2018. For fiscal years on and after 2019, trend starts at 8.00% and 9.00% for non-Medicare costs and post-Medicare costs, respectively, and gradually decreases to an ultimate trend of 4.50%. Additional trend rate of 0.36% is added to non-Medicare costs on and after 2022 to account for Excise Tax. |

Mortality rates for retirement and beneficiary annuitants were based on the RP-2014 White Collar Annuitant Mortality Table, adjusted for TRS experience. For disabled annuitants mortality rates were based on the RP-Disabled Annuitant table. Mortality rates for pre-retirement were based on the RP-2014 White Collar Table, All tables reflect future mortality improvements using Projection Scale MP-2014.

The actuarial assumptions used in the June 30, 2017 valuation were based on the results of an actuarial experience study for the period July 1, 2011 through June 30, 2014.

Discount rate

Projected benefit payments were discounted to their actuarial present value using a Single Discount Rate that reflects (1) a long-term expected rate of return on OPEB plan investments (to the extent that the plan's fiduciary net position is projected to be sufficient to pay benefits), and (2) tax-exempt municipal bond rate based on an index of 20-year general obligation bond with an average AA credit rating as of the measurement date (to the extent that the contributions for use with the long-term expected rate of return are not met). Since the THIS is financed on a pay-as-you-go basis, a discount rate consistent with the 20-year general obligation bond index has been selected. The discount rates are 3.56% as of June 30, 2017, and 3.62% as of June 30, 2018. The increase in the single discount rate from 3.56% to 3.62% caused the total OPEB liability to decrease by approximately \$285 million from 2017 to 2018.

Sensitivity of the employer's proportionate share of the net OPEB liability to changes in the discount rate and healthcare cost trend rate

The following presents the District's proportionate share of the net OPEB liability calculated using the discount rate of 3.62%, as well as what the District's proportionate share of the net OPEB liability would be if it were calculated using a discount rate that is 1-percentage-point lower (2.62%) or 1-percentage-point higher (4.62%) than the current rate:

| | Current | | | |
|-----------------------------------|---------------|---------------|---------------|--|
| | 1% Decrease | Discount Rate | 1% Increase | |
| | (2.62%) | (3.62%) | (4.62%) | |
| District's proportionate share of | | | | |
| the net OPEB liability | \$ 51,817,838 | \$ 43,095,881 | \$ 36,210,613 | |

The following presents the District's proportionate share of the net OPEB liability calculated using the healthcare cost trend rate, as well as what the District's proportionate share of the net OPEB liability would be if it were calculated using a discount rate that is 1-percentage-point lower or 1-percentage-point higher than the current healthcare cost trend rates. The key trend rates are 8.00% in 2019 decreasing to an ultimate trend rate of 4.86% in 2026 for non-Medicare coverage, and 9.00% decreasing to an ultimate trend rate of 4.50% in 2028 for Medicare coverage:

| | Healthcare Cost | | | | |
|-----------------------------------|-----------------|---------------------------|---------------|--|--|
| | 1% Decrease | Decrease Trend Rate 1% Ir | | | |
| | (a) | Assumptions | (b) | | |
| | | | | | |
| District's proportionate share of | | | | | |
| the net OPEB liability | \$ 34,943,780 | \$ 43,095,881 | \$ 54,078,717 | | |

- (a) One percentage point decrease in healthcare trend rates are 7.00% in 2019 decreasing to an ultimate trend rate of 3.86% in 2026, for non-Medicare coverage, and 8.00% in 2019 decreasing to an ultimate trend rate of 3.50% in 2028 for Medicare coverage.
- (b) One percentage point increase in healthcare trend rates are 9.00% in 2019 decreasing to an ultimate trend rate of 5.86% in 2026, for non-Medicare coverage, and 10.00% in 2019 decreasing to an ultimate trend rate of 5.50% in 2028 for Medicare coverage.

b. Postemployment Healthcare Plan

The District administers a single-employer defined benefit healthcare plan, the "retiree Healthcare Benefit Program" or "the Plan". The plan provides healthcare insurance for eligible retirees and their dependents through the District's group health insurance plan, which covers both active and retired members. Benefit provisions are established by state law and through negotiations between the District and the unions representing District employees, which are renegotiated each bargaining period. As of June 30, 2019, all retirees are eligible for benefits pre and post-Medicare. The Plan does not issue a stand-alone financial report.

Funding Policy

All plan funding is done on a pay-as-you go basis. Eligibility – IMRF employees hired prior to January 1, 2011 are eligible at the earliest of: 1. Age 55 with 8 years of service; or 2. Age 60 with 8 years of service. IMRF employees hired after January 1, 2011 are eligible at the earliest of: 1. Age 62 with 10 years of service; or 2. Age 67 with 10 years of service. Per contractual agreement, the District pays \$12,000 per year for retiree and spouse medical coverage for a retired former Superintendent; coverage ends upon attainment of age 65 by the retiree.

For the year ended June 30, 2019, the District's contributions and total retiree contributions were not determined.

Employees Covered by Benefit Terms

As of June 30, 2019, the following employees were covered by the benefit terms.

| Active employees | 109 |
|---|-----|
| Inactive employees entitled to but not yet receiving benefits | - |
| Inactive employees currently receiving benefits | 4 |
| Total | 113 |
| | |

Net OPEB Liability

The District's net OPEB liability was measured as of June 30, 2019. The total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of that date.

Actuarial Assumptions

The following are the methods and assumptions used to determine the total OPEB liability at June 30, 2019:

| Actuarial cost method Asset valuation method | Entry Age Normal Level N/A |
|---|---|
| Inflation | 3.00% |
| Salary increases | 4.00% |
| Investment rate of return | N/A |
| Retirement age | Based on IMRF (with 100% retirement at age 80) and IMRF actuarial valuation report for FYE December 31, 2017 |
| Mortality | Based on IMRF Actuarial Valuation Report for FYE December 31, 2017 and TRS Actuarial Valuation Report for FYE June 30, 2017 |
| Healthcare cost trend rates | Actual trend used for fiscal year 2018. For fiscal years on and after 2019, trend starts at 7.00%, and gradually decreases to an ultimate trend of 5.00%. |

Discount Rate

The District does not have a dedicated Trust to pay the benefits of the Plan. Per GASB 75, this discount rate is a yield or index rate for 20-year, tax exempt general obligation municipal bonds with an average rating of AA/Aa or higher (or equivalent quality on another rating scale). The discount rate used is 2.98%, which is the S&P Municipal Bond 20 Year High-Grade Rate Index as of June 30, 2019.

Changes in Net OPEB Liability

Sensitivity of the employer's proportionate share of the net OPEB liability to changes in the discount rate and healthcare cost trend rate

The following presents the District's proportionate share of the net OPEB liability calculated using the discount rate of 2.98%, as well as what the District's proportionate share of the net OPEB liability would be if it were calculated using a discount rate that is 1-percentage-point lower or 1-percentage-point higher than the current rate:

| | Current 1% Decrease Discount Rate (1.98%) (2.98%) | | | 1 | 1% Increase (3.98%) | |
|----------------------------|---|---------|----|---------|------------------------|---------|
| Net OPEB liability (asset) | \$ | 427,039 | \$ | 452,525 | \$ | 479,805 |

The following presents the District's proportionate share of the net OPEB liability calculated using the healthcare cost trend rate, as well as what the District's proportionate share of the net OPEB liability would be if it were calculated using a discount rate that is 1-percentage-point lower or 1-percentage-point higher than the current rate:

| | | | | | % Increase (8.00%) | |
|----------------------------|----|---------|----|---------|-----------------------|---------|
| Net OPEB liability (asset) | \$ | 416,351 | \$ | 452,525 | \$ | 494,044 |

OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

For the year ended June 30, 2019, the District recognized OPEB expense of \$30,027. At June 30, 2019, the District reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

| | Deferred | | | | |
|--|-------------|--------|------------------|-----------|--|
| | Outflows of | | Deferred Inflows | | |
| | Res | ources | of F | Resources | |
| ifference between expected and actual experience | \$ | - | \$ | 37,852 | |
| hanges in assumptions | | 31,876 | | 27,214 | |
| et difference between projected and actual | | | | | |
| earnings on OPEB plan investments | | - | | - | |
| otal deferred amounts to be recognized in | | | | | |
| pension expense in future periods | | 31,876 | | 65,066 | |
| | | | | | |
| ontributions subsequent to the measurement date | | - | | - | |
| | | | | | |
| Total | \$ | 31,876 | \$ | 65,066 | |
| | | | | | |

Amounts reported as deferred outflows of resources and deferred inflows of resources related to the Plan will be recognized in OPEB expense as follows:

| Year Ending June 30 | Ou | Deferred tflows of sources |
|------------------------|----|----------------------------------|
| 2020 | \$ | (5,312) |
| 2021 | | (5,312) |
| 2022 | | (5,312) |
| 2023 | | (5,312) |
| 2024 | | (5,312) |
| 2025 | | (5,312) |
| 2026 | | (1,188) |
| 2027 | | (130) |
| Total | \$ | (33,190) |

7. RISK MANAGEMENT

The District has purchased insurance through risk pools (see Note 10) and private insurance companies. Risks covered include general liability, workers' compensation, and other. Premiums have been displayed as expenditures in appropriate funds. No material decreases in insurance coverages have occurred nor have any insurance claims in excess of insurance coverages been paid or reported in any of the past three years.

8. SELF-INSURANCE PLAN

The District maintains a self-insurance plan to provide medical insurance to its employees. An outside administrator administers claims for a fixed fee per enrolled employee. The District makes periodic payments to an escrow account established by the plan administrator. The administrator pays employee claims from this escrow account and requires the District to cover any deficiencies. The District liability is limited by private insurance which provides a \$130,000 specific stop loss and a minimum aggregate stop loss of \$12,061,267. A liability of \$1,158,658 has been recorded as estimated claims incurred but not yet reported. Claims incurred but not yet reported include known loss events that are expected to later be presented as claims, unknown loss events that are expected future development on claims already reported.

A summary of the changes in the Districts claim liability is as follows:

| | Fiscal Year | | I | Fiscal Year |
|--|-------------|-------------|----|--------------|
| | Ended | | | Ended |
| | Ju | ne 30, 2019 | Ju | une 30, 2018 |
| Claims liability at July 1 | \$ | 1,377,925 | \$ | 1,397,297 |
| Current year claims and changes in estimates | | 7,840,080 | | 9,327,163 |
| Claim payments | | (8,059,347) | | (9,346,535) |
| Claims liability at June 30 | \$ | 1,158,658 | \$ | 1,377,925 |

9. COLLECTIVE LIABILITY INSURANCE COOPERATIVE (CLIC)

The District is a member of CLIC, which has been formed to provide casualty, workman's compensation, property and liability protections and to administer some or all insurance coverages and protection other than health, life and accident coverages procured by the member districts. It is intended, by the creation of CLIC to allow a member District to equalize annual fluctuations in insurance costs by establishing a program whereby reserves may be created and temporary deficits of individual Districts covered and to ultimately equalize the risks and stabilize the costs of providing casualty, property and liability protections. If, during any fiscal year, the funds on hand in the account of CLIC are not sufficient to pay expenses of administration, the Board of Directors shall require supplementary payment from all members. Such payment shall be made in the same proportion as prior payments during that year to CLIC. Complete financial statements for CLIC can be obtained from its administrator, 1441 Lake Street, Libertyville, IL 60048.

10. FUND BALANCE REPORTING

According to Government Accounting Standards, fund balances are to be classified into five major classifications: nonspendable, restricted, committed, assigned, and unassigned.

A. Nonspendable Fund Balance

The nonspendable fund balance classification includes amounts that cannot be spent because they are either (a) not in spendable form or (b) legally or contractually required to be maintained intact. The "not in spendable form" criterion includes items that are not expected to be converted to cash, for example inventories and prepaid amounts.

B. Restricted Fund Balance

The restricted fund balance classification refers to amounts that are subject to outside restrictions, not controlled by the entity. Things such as restrictions imposed by creditors, grantors, contributors, or laws and regulations of other governments, or imposed by law through constitutional provisions or enabling legislation. Special Revenue Funds are by definition restricted for those specified purposes. The District has several revenue sources received within different funds that also fall into these categories –

1. Special Education

Revenues and the related expenditures of this restricted tax levy are accounted for in the Educational Account. Expenditures exceeded revenue for this purpose, resulting in no restricted fund balance.

2. State and Federal Grants

Proceeds from state and federal grants and the related expenditures have been included in the General Fund and various Special Revenue Funds. At June 30, 2019, expenditures exceeded revenue from state and federal grants, resulting in no restricted balances.

3. Capital Projects Fund

Expenditures and the related revenues are accounted for in the Capital Projects Fund. All equity within this fund is restricted for the associated capital expenditures within this fund.

10. FUND BALANCE REPORTING (Continued)

C. Committed Fund Balance

The committed fund balance classification refers to amounts that can only be used for specific purposes pursuant to constraints imposed by formal action of the government's highest level of decision making authority (the School Board). Those committed amounts cannot be used for any other purpose unless the government removes or changes the specified use by taking the same type of formal action it employed to previously commit those amounts.

D. Assigned Fund Balance

The assigned fund balance classification refers to page the amounts that are constrained by the government's intent to be used for a specific purpose, but are neither restricted nor committed. Intent should be expressed by (a) the governing body itself or (b) a body (a budget or finance committee, for example) or official to which the governing body has delegated the authority to assign amounts to be used for specific purposes.

E. Unassigned Fund Balance

The unassigned fund balance classification is the residual classification for amounts in the General Operating Funds for amounts that have not been restricted, committed, or assigned to specific purposes within the General Funds. A negative unassigned fund balance may be reported in other governmental funds, if expenditures incurred for specific purposes exceeded the amounts restricted, committed, or assigned to those purposes.

F. Expenditures of Fund Balance

Unless specifically identified, expenditures disbursed act to reduce restricted balances first, then committed balances, next assigned balances, and finally act to reduce unassigned balances. Expenditures disbursed for a specifically identified purpose will act to reduce the specific classification of fund balance that is identified.

11. JOINT AGREEMENTS

The District is a member of Mid-Valley Special Education Cooperative, a joint agreement that provides certain special education services to residents of many school districts and Fox Valley Career Center, an education and vocational cooperative designed to provide quality career and technical training programs to students. It is also a member of the risk management pool listed in Note 7. The District believes that, because it does not control the selection of the governing authority, and because of the control over employment of management personnel, operations, scope of public service, and special financing relationships exercised by the joint agreement governing boards, these are not included as component units of the District.

12. INTERFUND TRANSFERS

The following interfund transfers were made during the year ended June 30, 2019:

| Transfer From | Transfer To | | Amount |
|--------------------------|------------------|----------------|-----------------|
| Operations & Maintenance | Capital Projects | | \$ 1,800,000 |
| | Debt Service | | 144,000 |
| | | Total | 1,944,000 |
| | | | |
| Educational | Debt Service | _ | 322,757 |
| | To | otal Transfers | \$ 2,266,757 |

The transfers to Capital Projects from Operations & Maintenance was made to provide working capital for future construction. The transfers from the Educational and Operations and Maintenance accounts to the Debt Service fund were made to fund payments on capital leases.

Notes to Schedule

Valuation date:

Actuarially determined contribution rates are calculated as of December 31 of each year, which are 12 months prior to the beginning of the fiscal year in which contributions are reported.

Methods and assumptions used to determine contribution rates:

| Actuarial cost method Amortization method Remaining amortization period Asset valuation method Wage growth Inflation Salary increases | Aggregate entry age normal Level percent of pay, closed 25 years 5-year smoothed market; 20% corridor 3.50% 2.75% 3.75% to 14.50%, including inflation |
|---|--|
| Investment rate of return | 7.50% |
| Retirement age | Experience-based table of rates that are specific to the type of eligibility condition. Last updated for the 2014 valuation pursuant to an experience study of the period 2011 - 2013. |
| Mortality | For non-disabled retirees, an IMRF specific mortality table was used with fully generational projection scale MP-2014 (base year 2012). The IMRF specific rates were developed from the RP-2014 Blue Collar Health Annuitant Mortality Table with adjustments to match current IMRF experience. For disabled retirees, an IMRF specific mortality table was used with fully generational projection scale MP-2014 (base year 2012). The IMRF specific rates were developed from the RP-2017 Disabled Retirees Mortality Table applying the same adjustment that were applied for non-disabled lives. For active members, an IMRF specific mortality table was used with fully generational projection scale MP-2014 (base year 2012). The IMRF specific rates were developed from the RP-2014 Employee Mortality Table with adjustments to match current IMRF experience. |

The District implemented GASB Statement No. 68 in fiscal year 2015. Information prior to fiscal year 2015 is not available.

Schedule of the District's Proportionate Share of the Net Pension Liability Teachers' Retirement System Last Five Fiscal Years

| | 2019* | 2018* |
|--|----------------|----------------|
| District's proportion of the net pension liability | 0.00541% | 0.79865% |
| District's proportionate share of the net pension liability | \$ 4,217,935 | \$ 6,101,561 |
| State's proportionate share of the net pension liability associated with the District | 288,946,263 | 286,815,948 |
| Total | \$ 293,164,198 | \$ 292,917,509 |
| District's covered-employee payroll | \$ 38,772,952 | \$ 38,726,872 |
| District's proportionate share of the net pension liability as a percentage of it's covered-employee payroll | 10.88% | 15.76% |
| Plan fiduciary net position as a percentage of the total pension liability | 40.00% | 39.30% |

Changes of assumptions

For the 2018, 2017 and 2016 measurement years, the assumed investment rate of return was of 7.0 percent, including an inflation rate of 2.5 percent and a real return of 4.5 percent. Salary increases were assumed to vary by service credit, but the rates of increase in the 2018 measurement year were slightly higher.

For the 2015 measurement year, the assumed investment rate of return was 7.5 percent, including an inflation rate of 3.0 percent and a real return of 4.5 percent. Salary increases were assumed to vary by service credit. Various other changes in assumptions were adopted based on the experience analysis for the three-year period ending June 30, 2014.

For the 2014 measurment year, the assumed investment rate of return was also 7.5 percent, including an inflation rate of 3.0 percent and a real return of 4.5 percent. However, salary increases were assumed to vary by age.

The District implemented GASB Statement No. 68 in fiscal year 2015. Information prior to fiscal year 2015 is not available.

* The amounts presented have a measurement date of the previous fiscal year end.

Budgetary Data

Annual budgets for all Governmental Funds are adopted on the modified accrual basis, consistent with generally accepted accounting principles (GAAP) for local governments.

The Board of Education follows these procedures in establishing the budgetary data reflected in the financial statements:

- 1. The Superintendent submits to the Board of Education a proposed operating budget for the fiscal year commencing July 1. The operating budget includes proposed expenditures and the means of financing them.
- 2. Public hearings are conducted and the proposed budget is available for inspection to obtain taxpayer comments.
- 3. Prior to October 1 the budget is legally adopted through passage of a resolution. On or before the last Tuesday in December, a tax levy ordinance is filed with the County Clerk to obtain tax revenues.
- 4. The Superintendent is authorized to transfer up to 10% of the total budget between departments within any fund without Board of Education approval; however, any revisions that alter the total expenditures of any fund must be approved by the Board of Education following the public hearing process mandated by law. The original budget was adopted on September 18, 2018 and amended on December 18, 2018.
- 5. Formal budgetary integration is employed as a management control device during the year for all Governmental Funds.
- 6. The District has adopted a legal budget for all its Governmental Funds. The legal level of budgetary control is at the individual fund level, therefore, actual expenditures for the governmental funds may not legally exceed the total budgeted for such funds. However, under the State Budget Act expenditures may exceed the budget if additional resources are available to finance such expenditures.
- 7. The budget lapses at the end of each fiscal year.

Excess of Expenditures over Budgets in Individual Funds

Expenditures exceeded the budgeted amount in the following Funds:

| | F | inal Budget | Actual | (Excess) |
|-----------------------|----|-------------|------------------|-----------------|
| Debt Service Fund | | 9,283,481 | 9,347,283 | (63,802) |
| Transportation Fund | | 4,512,536 | 4,564,055 | (51,519) |
| Municipal Retirement/ | | | | |
| Social Security Fund | | 1,588,265 | 1,742,020 | (153,755) |
| Total | \$ | 15,384,282 | \$ 15,653,358 | \$ (269,076) |

The General Fund does not budget for payments made by the State of Illinois on-behalf of the District for TRS. The expenditure variances were sufficiently absorbed by surpluses that existed at the beginning of the fiscal year and were approved by the Board of Education. Under the State Budget Act, expenditures may exceed the budget if additional resources are available to finance such expenditures.

COMBINING AND INDIVIDUAL FUND FINANCIAL STATEMENTS AND SCHEDULES

GENERAL FUND

To account for resources traditionally associated with government operations which are not accounted for in another fund, the District maintains the following legally mandated accounts within the General Fund:

Educational Account - To account for most of the instructional and administrative aspects of the District's operations.

Operations and Maintenance Account - To account for repair and maintenance of the District's property.

Working Cash Account - To account for financial resources held by the District to be used as loans for working capital requirements to any other fund for which taxes are levied.

NONMAJOR GOVERNMENTAL FUNDS

SPECIAL REVENUE FUNDS

To account for proceeds from specific revenue sources which are designated to finance expenditures for specific purposes, the District maintains the following Special Revenue Funds:

Transportation Fund - To account for activity relating to student transportation to and from school.

Municipal Retirement/Social Security Fund - To account for the District's portion of pension contributions to the Illinois Municipal Retirement Fund and Social Security for noncertified employees.

CAPITAL PROJECTS FUNDS

Capital Projects Fund - To account for financial resources to be used for the acquisition or construction of major capital facilities.

STATISTICAL SECTION (UNAUDITED)

Financial Trends

These schedules contain trend information to help the reader understand how the District's financial performance and well being have changed over time.

Revenue Capacity

These schedules contain information to help the reader assess the District's most significant local revenue source, the property tax.

Debt Capacity

These schedules present information to help the reader assess the affordability of the District's current levels of outstanding debt and the District's ability to issue additional debt in the future.

Demographic and Economic Information

These schedules offer demographic and economic indicators to help the reader understand the environment within which the District's financial activities take place.

Operating Information

These schedules contain service and infrastructure data to help the reader understand how the information in the District's financial report relates to the services the District provides and the activities it performs.

GASB 54 was implemented in fiscal year 2011, which also required the restatement of 2010. With this implementation, the Working Cash Fund was combined with the General Fund and governmental funds report five components of fund balance: nonspendable, restricted, committed, assigned, and unassigned.

For comparison purposes, the General Fund includes the Educational Fund and the Operations and Maintenance Fund. Beginning with 2010, the Working Cash Fund is also included. Specia revenue funds include the Transportation Fund, the Municipal Retirement/Social Security Fund, and the Working Cash Fund until 2010 when it moved to the General Fund
