

Safe Donation Guidelines:

- Please clean coats before donating them. The CDC recommends washing items according to the manufacturer's instructions, using the warmest appropriate water setting and drying items completely.
- Avoid touching other items in the donation bin.
- Wear a mask inside buildings and when donating.
- Wash hands thoroughly before and after donating. If soap and water are not available, use hand sanitizer that contains at least 60% alcohol.
- Please be aware that, according to the CDC, COVID-19 spreads easily between people but does not spread easily in other ways, like touching surfaces or objects. They say: "It may be possible that a person can get COVID-19 by touching a surface or object that has the virus on it and then touching their own mouth, nose, or possibly their eyes. This is not thought to be the main way the virus spreads, but we are still learning more about this virus."

WINTER CLOTHING DRIVE

October 4- 18

Please help the less fortunate in our community with donations of new or clean and gently used winter items in good condition:
