Department Issuing Report

Business Office

January 11, 2021

Dear President and Members of the Board of Education for, Citizens and Community Members of Batavia Public School District 101, Batavia. Illinois:

The Illinois School Code requires that all school districts publish a complete set of audited financial statements for each fiscal year. This report fulfills that requirement for the fiscal year ended June 30, 2020.

Responsibility for the accuracy of the data presented and the completeness and fairness of the presentation, including all disclosures, rests with the District. We believe the data as presented is (a) accurate in all material aspects, (b) presented in a manner designed to fairly set forth the financial activity of its various funds, and (c) that all disclosures necessary for public understanding of the District's financial status have been incorporated in the report.

Wipfli, LLP, has issued an unqualified ("clean") opinion on the District's financial statements for the fiscal year ended June 30, 2020. The independent auditor's report is located at the front of the financial section of this report.

The management's discussion and analysis (MD&A) immediately follows the independent auditor's report and provides a narrative introduction, overview, and analysis of the basic financial statements. The MD&A complements this letter of transmittal and should be read in conjunction with it.

ORGANIZATIONAL PROFILE

Batavia Public School District 101 was founded in 1911 and operates as a Unit District, serving the needs of children in grades pre-kindergarten to 12 and others as required by the Illinois School Code. The Board of Education, consisting of seven members, governs the District. The Board's powers and duties include the authority to adopt, enforce, and monitor all policies for the management and governance of the District's schools and levy a property tax on real property located within its boundaries.

The estimated population of the District was 28,150 residents in 2010, with the majority located within the City of Batavia in Kane County, Illinois, and the balance in small portions of the cities of Aurora, North Aurora, and Geneva. The District encompasses approximately 19 square miles of land, primarily within Batavia Township, and is situated approximately 35 miles west of Chicago.

The District's enrollment for the 2019-20 school year was officially 5,490 students. The District operates six elementary schools, one middle school, and one high school: Each of the elementary schools were

335 W Wilson St Batavia, IL 60510 **o** (630) 937-8800

BPS101.net

built in sister-pairs in 1955-57, 1978, and 2001. Batavia High School was erected in 1965 and Rotolo Middle School was built in 1992.

FINANCIAL STATEMENTS

The Comprehensive Annual Financial Report consists of three sections:

- 1. The *Introductory Section* includes this transmittal letter, the District's organizational chart, and a list of principal officers and officials.
- The Financial Section includes the management's discussion and analysis, financial statements and notes, required supplementary information and notes, and the independent auditors' report.
- 3. The *Statistical Section* includes selected unaudited data depicting the financial history of the District, demographics, and other miscellaneous information.

The financial reporting entity of the District is to include the District, as a primary government agency, and therefore includes all funds that are controlled by or dependent on the Board of Education of the District. The District does not exercise oversight responsibility for any other entity, and thus, does not include any other entity as a component unit in this report. Additionally, the District is an independent entity, not included as a component unit of any other reporting entity.

The general governmental activities include all services provided by the District: included are the general, special revenue, debt service and capital project funds. As such, these activities include all instructional, maintenance, and administrative costs of the District.

Property taxes are the most significant revenue source of the District. Other revenue sources consist of local revenues, exclusive of property taxes, including transportation fees, tuition, student activity fees, and building rentals.

The District is required to undergo an annual, single audit in conformity with the provisions of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). Information related to this single audit, including the schedule of expenditures of federal awards and independent auditors' reports on the internal control structure and compliance with applicable laws and regulations, are included in a separate report.

LOCAL ECONOMY AND ECONOMIC OUTLOOK

Batavia is among the oldest communities in the Fox Valley, having been settled in 1833, a full year before the City of Chicago. Once considered on the fringe of the Chicago metro-area, Batavia has matured into one of the premier communities in the western suburbs. Batavia serves as headquarters for many corporations and is home to Fermilab, the nation's top high-energy particle physics laboratory. A major regional shopping center for the metropolitan area lies within the District's boundaries.

Median household income for Batavia is \$92,094, significantly higher than the county and state as a whole. The median home value within for Batavia is \$306,000, up 1.9% over the last year. Development of new residential properties has begun to rebound from the Great Recession; the Batavia City Council has recently approved several residential developments which are expected to bring hundreds of new residents to the community.

Due to its strong and healthy local economy and tax base, the District maintains a credit rating of Aa2 from Moody's Investor Service, which reflects the District's sizable tax base, affluent demographic profile, debt burden, and bond repayment schedule. The District's tax base is diverse: it is comprised of 70% residential, 17% commercial, 12% industrial properties and its total equalized assessed value was \$1.3 billion in 2019, up 1.6% over the prior year.

LONG-TERM FINANCIAL PLANNING AND MAJOR INITIATIVES

The Board's finances have significantly improved over the last five years. The District's financial profile designation from the Illinois State Board of Education has risen from "early warning" status in 2015 to "recognition". At fiscal year-end, operational fund balance to revenue ratio stood at 40% and days cash on hand were 152, from lows of 23% and 127, respectively, in 2014. Most notably, the Board is no longer compelled to issue tax anticipation warrants to manage cash flow deficits each year.

The District continues to maintain a five-year financial projection and a five-year capital project plan to facilitate the effective and efficient application of financial resources to enrollment trends, evolving instructional practices, and maintenance of capital assets. For fiscal years 2022-2026, the Board expects to continue increasing allocations capital projects by 10% each year, likely totaling \$4.0 million annually in 2026.

Enrollment has declined in the last decade as fewer kindergarten students have registered, correlated with receding birth rates in Kane County. Projections indicate that enrollment will likely continue to decline by approximately 2% annually over the next five years.

Despite the COVID-19 pandemic, the District continued to make progress toward its strategic plan through:

- The implementation of "BPSU," a two-year internal university program for District teachers to improve pedagogical practices.
- The collaborative development of a long-term master facilities plan, aligned to current and projected instructional needs, colloquially called "Building Our Future Together."

RELEVANT FINANCIAL POLICIES

As a recipient of federal and state financial assistance, the District is required to implement an adequate internal control structure to ensure compliance with applicable laws and regulations related to those programs. This internal control structure is subject to periodic evaluation by the Administration.

In developing and evaluating the District's accounting system, consideration is given to the adequacy of the internal accounting controls. Such controls are designed to provide reasonable, but not absolute, assurance for the safeguarding of assets against loss from unauthorized use or disposition and the reliability of financial records for preparing financial statements and maintaining accountability for assets.

The District has adopted a legal budget for all of its Governmental Funds. Budgetary control is maintained at line-item levels and summarized by program, cost center, and fund. Actual activity is regularly reported to the Administration and Board of Education. Such reports compare account balances to the annual budget with accumulation to the cost center, fund, and total District levels, and full disclosures are made for extraordinary variances. Actual expenditures for Governmental Funds may not legally exceed the total budgeted for such funds.

AWARDS AND ACKNOWLEDGEMENTS

During the 2019-20 school year, the District was recognized for excellence in the following ways:

- Two of eight schools were rated by the Illinois State Board of Education as "exemplary" on the Illinois School Report card; the remaining were rated as "commendable".
- For the sixth time, the NAMM Foundation named the District as one of the "Best Communities for Music Education".
- The Batavia High School Building Trades II class built 3 "tiny shops" for the Batavia Boardwalk Shops in partnership with the City of Batavia and Batavia MainStreet.

In addition, the Batavia High School Class of 2020 earned the following distinctions:

- A 94% graduation rate
- 85% of students reported that they were attending a college or university in the fall

- 92 were named Illinois State Scholars
- 65% were enrolled in Advanced Placement courses
- 36 students earned the Seal of Biliteracy
- Enrolled in 614 dual credit courses through Waubonsee Community College
- 50% had a 3.81 or higher GPA

The citizens of Batavia have a long history of extraordinary support and high expectations for their schools. This Comprehensive Annual Financial Report is intended to provide them with a clear and concise understanding of the District's financial condition as of June 30, 2020.

Respectfully submitted,

Sun Hichens

Independent Auditor's Report

Board of Education Batavia Public School District 101 Batavia, IL

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the Batavia Public School District 101 (the "District") as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the District, as of June 30, 2020, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and required supplementary information, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The combining and individual fund financial statements and schedules are the responsibility of management and were derived from an relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual fund financial statements and schedules are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The statistical section has not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on them.

We have also audited, in accordance with auditing standards generally accepted in the United States of America, the District's basic financial statements for the year ended June 30, 2019, which are not presented with the accompanying financial statements, and we expressed unmodified opinions on the respective financial statements of the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information. The audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements as a whole. The schedules of revenues, expenditures and changes in fund balances - budget and actual, related to the 2019 financial statements are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the 2019 basic financial statements. The information has been subjected to the auditing procedures applied in the audit of those basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the 2019 schedules of revenues, expenditures and changes in fund balances - budget and actual are fairly stated in material respects in relation to the basic financial statements from which they have been derived.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 15, 2020 on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

Aurora, Illinois

Wipfli LLP

Management's Discussion & Analysis For The Year Ended June 30, 2020

The discussion and analysis of Batavia Public School District 101's (the District) financial performance provides review of the overall monetary health of the District and supplies a more in-depth analysis for the year ended June 30, 2020. Readers are encouraged to consider the information presented herein in conjunction with the transmittal letter found in the introductory section and all basic financial statements to enhance their understanding of the District's financial performance.

All amounts, unless otherwise indicated, are expressed in millions of dollars.

FINANCIAL HIGHLIGHTS

- Net position increased from regular activities by \$9.5 from 2019. Revenues and expenses increased from the prior year.
- General revenues accounted for \$87.1 in revenue, or 66 percent of all revenues. Program-specific revenues in the form of
 charges for services and fees and operating grants and contributions accounted for \$44.7, or 34 percent of total revenues
 of \$131.8.
- The District had \$122.3 in expenses related to government activities. However, only \$44.7 of these expenses were offset by program-specific charges and grants. The general revenues (primarily taxes) were adequate to provide for the cost of these programs.
- Governmental fund balances increased \$2.8, with overall revenues of \$114.2 and overall expenditures of \$111.4.

OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis are intended to serve as an introduction to the District's basic financial statements. The basic financial statements are comprised of three components:

- · Government-wide financial statements,
- Fund financial statements, and
- Notes to basic financial statements.

This report also contains other supplementary information in addition to the basic financial statements.

Government-wide financial statements

The government-wide financial statements are designed to provide readers with a broad overview of the District's finances in a manner similar to a private-sector business.

The statement of net position presents information on all of the District's assets and liabilities, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

The statement of activities presents information showing how the District's net position changed during the fiscal year being reported. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods.

Management's Discussion & Analysis For The Year Ended June 30, 2020

The government-wide financial statements present the functions of the District that are principally supported by taxes and intergovernmental revenues (governmental activities). The District has no business-type activities; that is, functions that are intended to recover all or a significant portion of their costs through user fees and charges. The District's governmental activities include instructional services (regular education, special education, and other), supporting services, operations and maintenance of facilities, and transportation services.

Fund financial statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the District can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental funds financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a school district's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental funds balance sheet and the governmental funds statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The District maintains five individual governmental funds. Information is presented separately in the governmental funds balance sheet and in the governmental funds statement of revenues, expenditures, and changes in fund balances for the General Fund (includes the Educational, Operations and Maintenance and Working Cash), Transportation Fund, Municipal Retirement/Social Security Fund, Debt Service Fund, and Capital Projects Fund.

The District adopts an annual budget for each of the funds listed above. A budgetary comparison schedule has been provided for each fund to demonstrate compliance with this budget.

Fiduciary funds are used to account for resources held for the benefit of parties outside the District. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the District's own programs. The accounting used for fiduciary funds is much like that for the government-wide financial statements.

Availability of fund resources

At June 30, 2020, the District had \$4,144,858 of fund balance restricted for debt service, \$3,075,097 restricted for student transportation, and \$614,402 restricted for employee retirement; the remaining \$26,860,188 of fund balance had no significant restrictions, commitments, or other limitations significantly affect the availability of fund resources for future use.

Management's Discussion & Analysis For The Year Ended June 30, 2020

Notes to basic financial statements

The notes to the financial statements provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Other information

In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the District's progress in funding its obligation to provide pension benefits to its noncertified employees, and other postemployment benefits provided to retirees.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

This District's net position as of June 30, 2020 was \$36.7. This was an increase of \$9.5 or 35 percent from the prior year.

DISTRICT-WIDE REVENUES BY SOURCE

DISTRICT-WIDE EXPENSES BY FUNCTION

Management's Discussion & Analysis For The Year Ended June 30, 2020

FINANCIAL ANALYSIS OF THE DISTRICT'S FUNDS

At the conclusion of the fiscal year, the District's governmental funds held a combined balance of \$34.7. Overall, the net balance increased \$2.8 after a prior period adjustment of (\$2.1), from \$34.0 to \$34.7.

The General Fund experienced an operating surplus of \$1.9. The non-major governmental funds experienced a combined operating surplus of \$0.6, primarily due to transfers from the General Fund.

GENERAL FUND BUDGETARY HIGHLIGHTS

General Fund budget anticipated an operating surplus of \$1.9. State revenues, including on-behalf revenues, were about \$1.0 higher than anticipated while total expenditures were about \$0.3 lower than budgeted.

The District realized significant variances throughout budget due to the COVID-19 pandemic, which compelled the District to provide all instruction remotely for students from mid-March 2020 through the end of the school year.

MAJOR FUND HIGHLIGHTS

Debt Service Fund

Revenues and expenditures totaled \$9.1 and \$9.2, respectively. The fund realized a surplus of \$0.3 with the net balance of other financing sources, with includes a transfer from the General Fund to pay for technology and facility leases.

CAPITAL ASSETS

By the end of 2020, the District had compiled a total investment of \$171.6 (\$103.7 net of accumulated depreciation) in a broad range of capital assets including land, land improvements, buildings, and equipment. Total depreciation expense for the year was \$3.6. More detailed information about capital assets can be found in Note 3 of the basic financial statements.

Management's Discussion & Analysis For The Year Ended June 30, 2020

LONG-TERM DEBT OBLIGATIONS

The District retired \$7.2 in bonds in 2020. In accordance with accounting principles generally accepted in the United States, the District is required to record the net pension liability attributable to the District's proportionate share of the Teachers' Retirement System and the Illinois Municipal Retirement System, which totaled \$8.9. In addition, the District is required to record the net OPEB liability attributable to the District's proportionate share of the Teachers' Health Insurance Security fund and the District's postretirement healthcare plan, which totaled \$44.6.

At year-end, the District held \$99.2 in long-term debt, which includes general obligation bonds, pension liabilities, other post-employment (OPEB) liabilities and other outstanding obligations. Other long-term liabilities for compensated absences held steady at \$0.2. The District's debt margin was \$100.4, or 30 percent of the legal maximum. More detailed information about long-term debt can be found in Note 4 of the basic financial statements.

Other Post Employment Benefits, Compensated Absences	43.7	7 44.6
Total	\$ 108.9	9 \$ 99.2

FACTORS BEARING ON THE DISTRICT'S FUTURE

At the time these financial statements were prepared and audited, the District was aware of the following circumstances that may significantly affect financial operations in the future:

- On March 13, 2020, the District suspended in-person instruction in response the COVID-19 pandemic. Shortly thereafter, Governor J.B. Pritzker declared an emergency and mandated remote learning for all students in Illinois, which eventually extended through the remainder of the school year. Continued pandemic mitigation measures compelled the District to begin the 2020-21 school year in multiple learning modalities: with high and middle school students attending remotely each day and elementary students in hybrid, alternating attendance between in-person and remote instruction. The District continues to adjust learning modalities as community spread and local conditions warrant.
- Student enrollment has declined by approximately 2% annually for the past nine years and is projected to continue to decline due to lower birth rates in Kane County. The enrollment decline accelerated to 4.5% in 2020-21 school year as a result of the COVID-19 pandemic, as many families opted for private schools or homeschooling as an alternative to the District's remote and hybrid instruction offerings. At present, the District anticipates that such students will return and re-enroll at the conclusion of the pandemic, and enrollment will return to its previous trend and slope.
- The District's primary source of revenue, local property taxes, is capped by law at the consumer price index of the prior year or 5%, whichever is less. Thus, CPI has a direct and profound impact on District's revenue growth.

Management's Discussion & Analysis For The Year Ended June 30, 2020

- The State of Illinois' fiscal health was already unhealthy, and as a result of the COVID-19 pandemic, has become precarious. It is yet unclear how the State's education funding will affect the District's finances in the coming years.
- The State of Illinois currently assumes a substantial portion of the "normal cost" of annual pension contributions for members of the Teachers' Retirement System. In the event that the General Assembly shifts portions of the annual pension contributions to school districts, the impact upon the District's finances is likely to be significant.

REQUESTS FOR INFORMATION

This financial report is designed to provide the District's citizens, taxpayers, and creditors with a general overview of the District's finances and to demonstrate the District's accountability for the money it receives. If you have questions about this report, or need additional financial information, contact the Business Office:

Reconciliation of the Statement of Revenues, Expenditures and Changes In Fund Balance of Governmental Funds to the Statement of Activities For The Year Ended June 30, 2020

Net change in fund balances - governmental funds		\$ 2,763,271
Amounts reported for governmental activities in the statement of activities are different because:		
Governmental funds report capital outlays as expenditures. However, in the statement of activities, assets with an initial, individual cost of more than \$5,000 are capitalized and the cost is allocated over their estimated lives and reported as depreciation expense. This is the amount by which capital outlays exceeded depreciation in the current period.		
Capital outlay Capital assets and depreciation adjustments Depreciation expense	1,756,263 (373,681) (3,265,947)	
	(3,203,347)	(1,883,365)
Internal service funds are used by management to account for healthcare related activities. The net revenue of certain activities of the internal service fund is reported with the governmental activities.		1,980,286
Because some of the governmental revenues will not be collected until several months after the District's fiscal year end, they are not considered "available" revenues and are deferred in the governmental funds.		204,489
Some items reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in the governmental funds. These activities consist of the following:		
Change in compensated absences Change in net pension liabilities Change in OPEB liabilities Change in deferred inflows/outflows related to pensions Change in deferred inflows/outflows related to OPEB	(96,805) 2,686,379 (935,205) (2,336,990) (347,282)	(4.020.002)
The governmental funds record bond and loan proceeds as other financing sources, while repayment of bond and loan principal is reported as an expenditure. Also, governmental funds report the effect of issuance costs and premiums when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. The net effect of these differences in the treatment of bonds and loans and related items is as follows:		(1,029,903)
Principal payments on bonds and capital leases Premium on bond issuance Refunding charge amortization	7,465,620 571,570 (563,073)	
		 7,474,117
Change in net position of governmental activities		\$ 9,508,895

Notes to Financial Statements

Note 1: Summary of Significant Accounting Policies

Batavia Public School District 101 (the "District") is governed by an elected Board of Education. The accounting policies of the District conform to accounting principles generally accepted in the United States of America (GAAP) as applicable to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. A summary of the significant accounting policies consistently applied in the preparation of the accompanying financial statements is described below.

The financial statements include:

- A Management's Discussion and Analysis (MD&A) providing an analysis of the District's overall financial position and results of operations.
- Financial statements prepared using the full-accrual basis of accounting for all the District's activities.
- Fund financial statements that focus on major funds.

Reporting Entity

In evaluating how to define the District for financial reporting purposes, management has considered all potential component units. The decision to include or exclude a potential component unit in the reporting entity is made by applying the criteria established by the Governmental Accounting Standards Board (GASB). The definition of a component unit is a legally separate organization for which the District is financially accountable and other organizations for which the nature and significance of their relationship with the District are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete. The District is financially accountable if it appoints a voting majority of the organization's governing body and (1) it is able to impose its will on that organization or (2) there is a potential for the organization to provide specific financial benefits to, or impose specific financial burdens on, the District. The District also may be financially accountable if an organization is fiscally dependent on the District, regardless of whether the organization has (1) a separately elected governing board, (2) a governing board appointed by a higher level of government or (3) a jointly appointed board. There are no component units, as defined by GASB, which are included in the District's reporting entity. Even though there are local governmental agencies, such as municipalities, libraries and park districts within the geographic area served by the District, these agencies have been excluded from the report because they are legally separate and the District is not financially accountable for them.

The District is not included as a component unit in any other governmental reporting entity as defined by GASB pronouncements.

Fund Accounting

The accounts of the District are organized on the basis of funds. A fund is an independent fiscal and accounting entity with a self-balancing set of accounts. Fund accounting segregates funds according to their intended purpose and is used to aid management in demonstrating compliance with finance-related legal and contractual provisions. The minimum number of funds is maintained consistent with legal and managerial requirements.

Notes to Financial Statements

Note 1: Summary of Significant Accounting Policies (Continued)

The following summarizes the fund types used by the District:

Governmental funds include the following fund types:

General Fund - The General Fund, which consists of the legally mandated Educational Account, Operations and Maintenance Account, Tort Immunity Account and Working Cash Account, is used to account for revenues and expenditures, which are used in providing education in the District. It is used to account for all financial resources except those accounted for in other funds.

Educational Account – This account is used for most of the instructional and administrative aspects of the District's operations as well as accounting for the costs of providing school lunch services to students. The revenue consists primarily of local property taxes, state government aid, student registration fees, and investment income.

Operations and Maintenance Account – This account is used for expenditures made for the operation, repair and maintenance of District property. Revenue in this fund consists primarily of local property taxes.

Working Cash Account – This account is used for financial resources held by the District to be used as loans for working capital requirements to any other fund for which taxes are levied. The Working Cash Account was established and has been used to respond to fluctuations in cash flows resulting from unpredictable property tax collections. The earnings of the fund are allowed to be transferred to another fund under Illinois Compiled Statutes. The principal of the fund, accumulated from bond issues, can be used as a source from which the District borrows money to support temporary deficiencies in other funds, or may be partially or fully transferred to the General Fund's Educational Account, upon Board approval.

Special Revenue Funds - Special revenue funds account for the proceeds of specific revenue sources (other than those related to debt service or capital projects) that are legally restricted to expenditures for specified purposes. The District's special revenue funds are the Transportation Fund and the Municipal Retirement/Social Security Fund.

Transportation Fund – This fund accounts for the revenue and expenditures relating to student transportation to and from school. Revenue is derived primarily from local property taxes and state reimbursement grants.

Municipal Retirement/Social Security Fund – This fund accounts for the District's portion of the pension contributions to the Illinois Municipal Retirement Fund for noncertified employees and social security contributions for applicable certified and noncertified employees. Revenue to finance the contributions is derived primarily from local property taxes.

Notes to Financial Statements

Note 1: Summary of Significant Accounting Policies (Continued)

Debt Service Funds - Debt service funds are used to account for and report financial resources that are restricted, committed, or assigned to expenditures for principal and interest. Debt service funds should be used to report resources if legally mandated. Financial resources that are being accumulated for principal and interest maturing in future years should also be reported in debt service funds.

Debt Service Fund - The Debt Service Fund accounts for the accumulation of resources for, and the payment of, general long-term debt principal, interest, and related costs. Since there are no legal requirements on bond indentures, which mandate that a separate fund be established for each bond issue, the District maintains one debt service fund for all bond issues.

Capital Projects Funds - Capital projects funds are used to account for and report financial resources that are restricted, committed, or assigned to expenditures for capital outlays, including the acquisition or construction of capital facilities and other capital assets.

Capital Projects Fund – Capital projects funds include both the Capital Projects Fund and the Fire Prevention and Safety Fund. The Capital Projects Fund includes the HMS Construction Fund, which accounts for financial resources to be used for the acquisition or construction of major capital facilities related to Hinsdale Middle School, and the Capital Projects Fund, which accounts for financial resources to be used for the acquisition or construction of all other major capital facilities. The Fire Prevention and Safety Fund accounts for financial resources to be used for acquisitions and construction projects which qualify as fire prevention and safety expenditures.

Proprietary Funds – Proprietary funds account for activities similar to those found in the private sector, where the determination of net income is necessary or useful to sound financial administration.

Internal Service Fund - The internal service fund is used account for the financing of goods or services provided by an activity to other departments or funds of the District on a cost-reimbursement basis. The District maintains one internal service fund. The Health Insurance Fund accounts for contributions (employee, employer and retirees) for provided group health, dental and life insurance to District employees.

Fiduciary Funds – Fiduciary funds account for assets held by the District in a trustee capacity or as an agent for individuals, private organizations, other governments or other funds.

Agency Funds - The agency funds (student activity funds) account for assets held by the District in a trustee capacity or as an agent for student organizations. These funds are custodial in nature (assets equal liabilities) and do not involve a measurement of the results of operations. In accordance with GASB 34, fiduciary funds are not included in the government-wide financial statements.

The District reports the following funds as major governmental funds:

General Fund

Debt Service Fund

Notes to Financial Statements

Note 1: Summary of Significant Accounting Policies (Continued)

Basis of Presentation

Government-Wide Financial Statements

The government-wide financial statements (i.e. the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the District. The effect of interfund activity has been removed from these statements. The District's operating activities are all considered "governmental activities", that is, activities normally supported by taxes and intergovernmental revenues. The District has no operating activities that would be considered "business-type activities".

The statement of activities demonstrates the degree to which the direct expenses of a given function are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. Program revenues include (1) charges to customers or applicants who purchase, use or directly benefit from goods, services or privileges provided by a given function and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Taxes and other items not properly included among program revenues are reported as general revenues instead.

Separate financial statements are provided for all governmental funds, proprietary funds, and fiduciary funds, even though the fiduciary funds are excluded from the government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements.

Measurement focus, basis of accounting, and financial statement presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Under the accrual basis of accounting, revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements have been met.

Governmental funds are used to account for the District's general governmental activities. Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recognized when susceptible to accrual, i.e., when they are both "measurable and available." "Measurable" means that the amount of the transaction can be determined and "available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. The District considers all revenues available if they are collected within 60 days after year-end. Revenues collected after 60 days are recorded as unavailable revenue. Expenditures are recorded when the related fund liability is incurred. However, unmatured principal and interest on general long-term debt is recognized when due; and certain compensated absences and claims and judgments are recognized when the obligations are expected to be liquidated with expendable available financial resources.

Notes to Financial Statements

Note 1: Summary of Significant Accounting Policies (Continued)

Basis of Presentation (Continued)

Property taxes, certain state and federal aid, and interest on investments are susceptible to accrual. Other receipts become measurable and available when cash is received by the District and are recognized as revenue at that time. Grant funds are considered to be earned to the extent of expenditures made under the provisions of the grant and accordingly, when such funds are received they are recorded as unearned revenues until earned.

On-behalf payments (payments made by a third party for the benefit of the District, such as payments made by the state to the Teachers' Retirement System of the State of Illinois (TRS)) have been recognized in the government-wide financial statements.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenue of the District's internal service fund is contributions (employee, employer, and retirees) for providing health, dental, and life insurance to District employees. Operating expenses for the internal service fund include the cost of services, administrative expenses, and cost-reimbursements.

When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, then unrestricted resources as they are needed.

Unearned Revenue and Deferred Outflows/Inflows of Resources

Deferred inflows of resources and unearned revenue arise when assets are recognized before revenue recognition criteria have been satisfied. On governmental fund financial statements, receivables that will not be collected within the available period have also been reported as deferred inflows of resources. Property taxes for which there is an enforceable legal claim as of June 30, 2020, but which were levied to finance fiscal year 2020 operations, have been recorded as deferred inflows of resources. Grants and entitlements received before the eligibility requirements are met are recorded as unearned revenue. The District also reports deferred inflows for pensions and OPEB.

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The District reports deferred outflows for pensions and OPEB.

Notes to Financial Statements

Note 1: Summary of Significant Accounting Policies (Continued)

Basis of Presentation (Continued)

Expenses/Expenditures

On the accrual basis of accounting, expenses are recognized at the time they are incurred.

The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Allocation of costs, such as depreciation and amortization are not recognized in governmental funds.

Deposits and Investments

Under Illinois law, the District is restricted to investing funds in specific types of investment instruments. The following generally represents the types of instruments allowable by state law:

- Securities issued or guaranteed by the United States.
- Interest and non-interest bearing accounts of financial institutions insured by the Federal Deposit Insurance Corporation.
- Short-term obligations (less than 180 days) of U.S. corporations with assets over \$500,000,000 rated in the three highest classifications by at least two rating agencies.
- Insured accounts of an Illinois credit union chartered under United States or Illinois law.
- Money market mutual funds with portfolios of securities issued or guaranteed by the United States or agreements to repurchase these same types of obligations.
- Illinois Funds. (A state sponsored investment pool.)
- Repurchase agreements that meet instrument transaction requirements of Illinois law.

Property Tax Revenues

The District must file its tax levy resolution by the last Tuesday in December of each year. The District's 2019 levy resolution was approved during the November 19, 2019 Board of Education meeting. The District's property tax is levied each year on all taxable real property located in the District, and it becomes a lien on the property on January 1 of that year. The owner of real property on January 1 in any year is liable for taxes of that year. The District's annual property tax levy is subject to two statutory limitations: Individual fund rate ceilings and the Property Tax Extension Limitation Act (PTELA).

Notes to Financial Statements

Note 1: Summary of Significant Accounting Policies (Continued)

Property Tax Revenues (Continued)

The PTELA limitation is applied in the aggregate to the total levy (excluding certain levies for the repayment of debt or other voter referenda provisions). PTELA limits the increase in total taxes billed to the lesser of 5% or the new percentage increase in the Consumer Price Index (CPI) for the preceding year. The amount can be exceeded to the extent there is "new growth" in the District's tax base. The new growth consists of new construction, annexations and tax increment finance district property becoming eligible for taxation.

Property taxes are collected by the County Collector/Treasurer, who remits to the District its share of collections. Taxes levied in one year become due and payable in two equal installments the following year: the first due on June 1 and the second due on September 1 for property located in Kane County. Property taxes are normally collected by the District within 60 days of the respective installment dates.

The 2019 property tax levy is recognized as a receivable in fiscal year 2020. The District considers that the first installment of the 2019 levy is to be used to finance operations in fiscal year 2020. The District has determined that the second installment of the 2019 levy is to be used to finance operations in fiscal year 2021 and has deferred the corresponding receivable and collections.

Personal Property Replacement Taxes

Personal property replacement taxes are first allocated to the Municipal Retirement/Social Security Fund, and the balance is then allocated to the remaining funds at the discretion of the District.

Capital Assets

Capital assets, which include land, buildings, buildings improvements, vehicles, equipment, and construction in progress are reported in the government-wide financial statements. Capital assets are defined by the District as assets with an initial individual cost of more than \$5,000 and an estimated life of one year or more. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated acquisition value at the date of donation.

The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend the life of an asset are not capitalized. Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during construction is not capitalized. Depreciation of capital assets is provided using the straight-line method over the following estimated useful lives:

	Years
Buildings	20-50 years
Land improvements	20 years
Equipment and vehicles	3-10 years

Notes to Financial Statements

Note 1: Summary of Significant Accounting Policies (Continued)

Compensated Absences

Employees who work a twelve-month year are entitled to be compensated for vacation time. Vacation time is earned at varying rates according to job positions and years of service, as provided in the employment agreements. Although vacations are usually taken with the year, employees may carry over 1/2 times their annual vacation leave to the following fiscal year. As of June 30, 2019, the District has recognized a liability in the General Fund for that portion of accumulated unpaid vacation leave salary related payments that are expected to be paid from the current financial resources. The accrued unpaid vacation leave at June 30, 2020 in the amount of \$241,796 is reflected as a liability in the Government-wide financial statements.

Prepaid Items

Certain payments to vendors reflect costs applicable to future accounting periods and are reported as prepaid items in both the government-wide and fund financial statements. Prepaid items are accounted for using the consumption method. They are recognized as an expenditure as they are used.

Long-Term Obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the statement of net position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the straight-line method, which approximates the effective interest method. Bonds payable are reported net of the applicable bond premium or discount.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

Net Position

For government-wide reporting, the difference between assets and deferred outflows of resources less liabilities and deferred inflows of resources is called net position. Net position is comprised of three components; net investment in capital assets, restricted, and unrestricted.

Notes to Financial Statements

Note 1: Summary of Significant Accounting Policies (Continued)

Net Position (Continued)

Net investment in capital assets consists of capital assets, including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvements of those assets and adjusted for any deferred inflows of resources and deferred outflows of resources attributable to capital assets and related debts.

At June 30, 2020, the District had the following net investment in capital assets:

Capital assets, net of accumulated depreciation \$ 103,692,913

Outstanding balances of debt attributable to capital assets (46,398,596)

Unamortized bond premiums (1,895,695) (48,294,291)

Deferred outflows of resources on bond refunding 2,075,912

Net investment in capital assets \$ 57,474,534

Restricted net position consists of restricted assets and deferred outflows of resources reduced by the liabilities and deferred inflows of resources related to those assets and deferred outflows of resources, with restriction constraints placed on their use either by external groups, such as creditors, grantors, contributors, or laws and regulations of other governments, or law through constitutional provisions or enabling legislation.

Unrestricted net position is the net amount of the assets, deferred outflows of resources, and deferred inflows of resources that does not meet the definition of the two preceding categories.

It is the District's policy to first use restricted net resources prior to the use of unrestricted net resources when an expense is incurred for purposes for which both restricted and unrestricted net resources are available.

Pensions

For purposes of measuring the net pension and OPEB liabilities, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net positions of the Teachers' Retirement System of the State of Illinois (TRS), the Illinois Municipal Retirement Fund (IMRF), the Teachers' Health Insurance Security Fund (THIS) and the Post-Retirement Health Plan, together "the Plans," and additions to/deductions from the Plans' fiduciary net positions have been determined on the same basis as they are reported by the Plans. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Comparative Data

Comparative totals for the prior year have been presented in selected sections of the accompanying financial statements in order to provide an understanding of the changes in the District's financial position and operations.

Notes to Financial Statements

Note 1: Summary of Significant Accounting Policies (Continued)

Eliminations and Reclassifications

In the process of aggregating data for the government-wide financial statements, some amounts reported as interfund activity and balances were eliminated or reclassified.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures during the reporting period. Actual results could differ from those estimates.

Fund Balance Classifications

According to governmental accounting standards, fund balances are to be classified into five major classifications; nonspendable fund balance, restricted fund balance, committed fund balance, assigned fund balance, and unassigned fund balance.

Non-spendable: The nonspendable fund balance classification includes amounts that cannot be spent because they are either (a) not in spendable form or (b) are legally or contractually required to be maintained intact. The "not in spendable form" criterion includes items that are not expected to be converted to cash, for example inventories and prepaid amounts.

Restricted: The restricted fund balance classification refers to amounts that are subject to outside restrictions, not controlled by the entity, including restrictions imposed by creditors, grantors, contributors, or laws and regulations of other governments, or imposed by law through constitutional provisions or enabling legislation. Fund balances of special revenue funds are by definition restricted for those specified purposes. The District has several revenue sources received within different funds that also fall into these categories:

State and federal grants

Proceeds from state and federal grants and the related expenditures have been included in the General Fund and various special revenue funds. At June 30, 2020, expenditures exceeded revenue from state and federal grants, resulting in no restricted balances.

Capital projects funds

Expenditures and the related revenues received are accounted for in the Capital Projects Fund and Fire Prevention and Safety Fund. All equity within these funds is restricted for the associated capital expenditures within these funds.

Notes to Financial Statements

Note 1: Summary of Significant Accounting Policies (Continued)

Fund Balance Classifications (Continued)

Committed: The committed fund balance classification refers to amounts that can only be used for specific purposes pursuant to constraints imposed by formal action of the government's highest level of decision-making authority (the school board). Those committed amounts cannot be used for any other purpose unless the government removes or changes the specified use by taking the same type of formal action it employed to previously commit those amounts.

Assigned: The assigned fund balance classification refers to the amounts that are constrained by the government's intent to be used for a specific purpose, but are neither restricted nor committed. Intent should be expressed by (a) the governing body itself or (b) a body (a budget or finance committee, for example) or official to which the governing body has delegated the authority to assign amounts to be used for specific purposes.

Unassigned: The unassigned fund balance classification is the residual classification for amounts in the general operating funds for amounts that have not been restricted, committed, or assigned to specific purposes within the general operating funds.

Unless specifically identified, expenditures disbursed act to reduce restricted fund balances first, then committed fund balances, next assigned fund balances, and finally act to reduce unassigned fund balances. Expenditures disbursed for a specifically identified purpose will act to reduce the specific classification of fund balance that is identified.

Note 2: Deposit and Investments

Custodial Credit Risk – Deposits

The District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

At June 30, 2020, the carrying amount of the District's cash, deposits, and investments, including student activity funds of \$138,314 and petty cash of \$900, totaled \$37,337,237 and the bank balances totaled \$8,248,042. Custodial credit risk is the risk that in the event of a bank failure, the government's deposits may not be returned to it. The government does not have a deposit policy for custodial credit risk. As of June 30, 2020, all deposits were insured or collateralized.

Notes to Financial Statements

Note 2: Cash and Investments (Continued)

As of June 30, 2020, the District had the following fair values and investment maturities:

		Inv	estment Ma	turities (in Years)
	Fair Value	Less than 1	1 - 5	Percent of Portfolio	Applicable Agency Rating
Illinois School DistrictLiquid Asset Fund					
(ISDLAF)	\$ 26,144,541	\$ 26,144,541 \$	-	83.8 %	AAAm
Illinois Funds	5,055,512	5,055,512		<u>16.2</u> %	AAAm
Total investments	\$ <u>31,200,053</u>	<u>\$ 31,200,053</u> \$		100.0 %	

The Illinois School District Liquid Asset Fund Plus (ISDLAF+) is an investment pool created and regulated by the Illinois General Assembly. The fair value of the District's investment in ISDLAF+ has been determined using the net asset value (NAV) per share (or its equivalent) of the investments. The NAV of the Liquid Class and MAX Class are determined as of the close of business on each Illinois banking day. The Multi-Class Series invests in high-quality short-term debt instruments (money market instruments), and shares may be redeemed on any Illinois banking day. The Term Series invest in high-quality debt instruments, which are generally money market instruments but may include instruments with a maturity over one year, and shares may be redeemed with seven days' advance notice. There were no known restrictions on redemption of the District's investments as of June 30, 2020.

Interest Rate Risk. The District's investment policy seeks to ensure the preservation of capital in the District's overall portfolio. Return on investment is of secondary importance to safety of principal and liquidity. The policy does not limit investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates. However, the policy requires the District investment portfolio to be sufficiently liquid to enable the District to meet all operating requirements as they come due. A portion of the portfolio is required to be invested in readily available funds to ensure appropriate liquidity.

Credit Risk. The District's investments are rated, as shown above, by the applicable rating agency.

Concentration of Credit Risk. The District places no limit on the amount the District may invest with any one issuer. More than 5 percent of the District's investments are concentrated in specific individual investments. The above table indicates the percentage of each investment to the total investments of the District.

Custodial Credit Risk. With respect to investments, custodial credit risk is the risk that, in the event of failure of the counterparty, the government will not be able to recover the value of its investment or collateral securities that are in possession of an outside party. The District's investment policy limits the exposure to investment custodial credit risk by requiring that all investments be secured by private insurance or collateral.

Foreign Currency Risk. The District held no foreign investments during the fiscal year.

Separate cash and investment accounts are not maintained for all District funds; instead, the individual funds maintain their invested and uninvested balances in the common account balance attributable to each participating fund. Occasionally certain funds participating in the common bank accounts will incur overdrafts (deficits) in the account. The overdrafts result from expenditures that have been approved by the Board of Education.

Notes to Financial Statements

Note 3: Capital Assets

Governmental activities capital asset balances and activity for the year ended June 30, 2020, were as follows:

	Balance			Balance
Governmental Activities	7/1/2019	Increases	Decreases	6/30/2020
Capital assets, not being depreciated: Land	\$ <u>1,178,404</u> \$; <u> </u>	; -	\$ 1,178,404

Notes to Financial Statements

Note 4: Long-Term Debt (Continued)

Long-term debt at June 30, 2020 is comprised of the following:

General Obligation Bonds

General Obligation Refunding Bonds dated July 23, 2012 were issued in the amount of \$10,000,000. Principal payments are due January 1. Interest payments at rates from 2.00% to 3.00% are due on July 1 and January 1, through the fiscal year ending June 30, 2025.

General Obligation Refunding Bonds dated February 20, 2013 were issued in the amount of \$9,995,000. Principal payments are due January 1. Interest payments at rates from 2.00% to 2.25% are due on July 1 and January 1, through the fiscal year ending June 30, 2024.

General Obligation Refunding Bonds dated March 3, 2014 were issued in the amount of \$26,470,000. Principal payments are due January 1. Interest payments at rates from 3.00% to 5.00% are due on July 1 and January 1, through the fiscal year ending June 30, 2023.

General Obligation Refunding Bonds dated March 17, 2015 were issued in the amount of \$9,965,000. Principal payments are due January 1. Interest payments at rates from 2.00% to 2.55% are due on July 1 and January 1, through the fiscal year ending June 30, 2026.

General Obligation Refunding Bonds dated March 1, 2016 were issued in the amount of \$16,165,000. Principal payments are due January 1. Interest payments at rates from 2.00% to 4.00% are due on July 1 and January 1, through the fiscal year ending June 30, 2025.

Annual debt service requirements to maturity for general obligation bonds are as follows for governmental type activities:

Fiscal Year		Principal	Interest	Total
2021	\$	7,500,000	\$ 1,355,960	\$ 8,855,960
2022		7,855,000	987,110	8,842,110
2023		8,230,000	685,303	8,915,303
2024		8,455,000	465,432	8,920,432
2025		8,675,000	244,259	8,919,259
2026	_	5,095,000	64,961	 5,159,961
Total	\$_	45,810,000	\$ 3,803,025	\$ 49,613,025

Notes to Financial Statements

Note 4: Long-Term Debt (Continued)

The District is subject to the Illinois School Code, which limits the amount of certain indebtedness to 6.9% of the most recent available equalized assessed valuation of the District. As of June 30, 2020, the statutory debt limit for the District was \$184,919,798, providing a debt margin of \$142,666,060 after taking into account amounts available in the Debt Service Fund.

Capital leases

The District has entered into lease agreements as lessee for financing the acquisition of copiers and other equipment. The lease agreements qualify as capital leases for accounting purposes and therefore, the assets and obligations have been recorded at the present value of the future minimum lease payments as of the inception date. At June 30, 2020, \$1,657,429 of amounts included in capital assets – equipment were acquired via capital leases. The obligations for the capital leases will be repaid from the Debt Service Fund. The future minimum lease obligations as of June 30, 2020 are as follows:

Fiscal Year	Total
2021	\$ 207,298
2022	201,298
2023	144,000
2025	36,000
Total	\$ <u>588,596</u>

Defeased Bonds

In prior years, the District issued General Obligation Refunding School Bonds to fully advance refund previously outstanding General Obligation Bonds. As a result, the General Obligation Bonds are considered defeased and the liability has been removed from the general long-term debt. As of June 30, 2020, \$32,685,000 of defeased bonds are still outstanding.

Note 5: Employee Retirement Systems

The retirement plans of the District include the Teachers' Retirement System of the State of IL (TRS) and the IL Municipal Retirement Fund (IMRF). Most funding for TRS is provided through payroll withholdings of certified employees and contributions made by the State of Illinois on-behalf of the District. IMRF is funded through property taxes and a perpetual lien of the District's corporate personal property replacement tax. Each retirement system is discussed below.

Notes to Financial Statements

Note 5: Employee Retirement Systems (Continued)

a. Teachers' Retirement System of the State of Illinois (TRS)

Plan Description

The District participates in the TRS. TRS is a cost-sharing, multiple-employer defined benefit pension plan that was created by the Illinois legislature for the benefit of Illinois public school teachers employed outside the City of Chicago. TRS members include all active non-annuitants who are employed by a TRS-covered employer to provide services for which teacher licensure is required. The Illinois Pension Code outlines the benefit provisions of TRS, and amendments to the plan can be made only by legislative action with the Governor's approval. The TRS Board of Trustees is responsible for the System's administration.

TRS issues a publicly available financial report that can be obtained at https://www.trsil.org/financial/cafrs/fy2019; by writing to TRS at 2815 W. Washington, PO Box 19253, Springfield, IL 62794; or by calling (888) 678-3675, option 2.

Benefits Provided

TRS provides retirement, disability, and death benefits. Tier I members have TRS or reciprocal system service prior to January 1, 2011. Tier I members qualify for retirement benefits at age 62 with five years of service, at age 60 with 10 years, or age 55 with 20 years. The benefit is determined by the average of the four highest consecutive years of creditable earnings within the last 10 years of creditable service and the percentage of average salary to which the member is entitled. Most members retire under a formula that provides 2.2 percent of final average salary up to a maximum of 75 percent with 34 years of service. Disability and death benefits are also provided.

Tier II members qualify for retirement benefits at age 67 with 10 years of service, or a discounted annuity can be paid at age 62 with 10 years of service. Creditable earnings for retirement purposes are capped and the final average salary is based on the highest consecutive eight years of creditable service rather than the last four. Disability provisions for Tier II are identical to those of Tier I. Death benefits are payable under a formula that is different from Tier I.

Essentially all Tier I retirees receive an annual 3 percent increase in the current retirement benefit beginning January 1 following the attainment of age 61 or on January 1 following the member's first anniversary in retirement, whichever is later. Tier II annual increases will be the lesser of three percent of the original benefit or one-half percent of the rate of inflation beginning January 1 following attainment of age 67 or on January 1 following the member's first anniversary in retirement, whichever is later.

Public Act 100-0023, enacted in 2017, creates an optional Tier III hybrid retirement plan, but it has not yet gone into effect. Public Act 100-0587, enacted in 2018, requires TRS to offer two temporary benefit buyout programs that expire on June 30, 2021. One program allows retiring Tier 1 members to receive a partial lump-sum in exchange for accepting a lower, delayed annual increase. The other allows inactive vested Tier 1 and 2 members to receive a partial lump-sum payment in lieu of a retirement annuity. Both programs began in 2019 and are funded by bonds issued by the state of Illinois.

Notes to Financial Statements

Note 5: Employee Retirement Systems (Continued)

Contributions

The state of Illinois maintains the primary responsibility for funding TRS. The Illinois Pension Code, as amended by Public Act 88-0593 and subsequent acts, provides that for years 2010 through 2045, the minimum contribution to the System for each fiscal year shall be an amount determined to be sufficient to bring the total assets of the System up to 90% of the total actuarial liabilities of the System by the end of fiscal year 2045.

Contributions from active members and TRS contributing employers are also required by the Illinois Pension Code. The contribution rates are specified in the pension code. The active member contribution rate for the year ended June 30, 2019, was 9.0% of creditable earnings. The member contribution, which may be paid on behalf of employees by the employer, is submitted to TRS by the employer.

On-behalf contributions to TRS. The State of Illinois makes employer pension contributions on-behalf of the District. For the year ended June 30, 2020, State of IL contributions recognized by the District were based on the State's proportionate share of the pension expense associated with the District, and the District recognized revenue and expenses of \$31,410,933 in the governmental activities based on the economic resources measurement focus and revenues and expenditures of \$18,072,224 in the General Fund based on the current financial resources measurement focus.

2.2 formula contributions. The District contributes 0.58% of total creditable earnings for the 2.2 formula change. This rate is specified by statute. Contributions for the year ended June 30, 2020 were \$232,099, and are deferred because they were paid after the June 30, 2020 measurement date.

Federal and special trust fund contributions. When TRS members are paid from federal and special trust funds administered by the District, there is a statutory requirement for the District to pay an employer pension contribution from those funds. Under Public Act 100-0340, the federal and special trust fund contribution rate is the total employer normal cost beginning with the year ended June 30, 2018.

Previously, employer contributions for employees paid from federal and special trust funds were at the same rate as the state contribution rate to TRS and were much higher.

For the year ended June 30, 2020, the employer pension contribution was 10.66% of salaries paid from federal and special trust funds. For the year ended June 30, 2020, salaries totaling \$329,893 were paid from the federal and special trust funds that required employer contributions of \$35,166. These contributions are deferred because they were paid after the June 30, 2019 measurement date.

Employer retirement cost contributions. Under GASB Statement No. 68, contributions that an employer is required to pay because of a TRS member retiring are categorized as specific liability payments. The District is required to make a one-time contribution to TRS for members granted salary increases over 6 percent if those salaries are used to calculate a retiree's final average salary.

Notes to Financial Statements

Note 5: Employee Retirement Systems (Continued)

A one-time contribution is also required for members granted sick leave days in excess of the normal annual allotment if those days are used as TRS service credit. For the year ended June 30, 2020, the District paid \$7,499 to TRS for employee contributions due on salary increases in excess of 6 percent and made no payment for sick leave days granted in excess of the normal allotment.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2020, the District reported a liability for its proportionate share of the net pension liability (first amount shown below) that reflected a reduction for State pension support provided to the District. The State's support and total are for disclosure purposes only. The amount recognized by the District as its proportionate share of the net pension liability, the related State support, and the total portion of the net pension liability that was associated with the District follows below:

District's proportionate share of the net pension liability	\$ 4,064,999
State's proportionate share of the net pension liability associated with the District	289,301,535
	Á 202 255 F24
Total	\$ 293,366,534

The net pension liability was measured as of June 30, 2020, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2018 and rolled forward to June 30, 2020. The employer's proportion of the net pension liability was based on the employer's share of contributions to TRS for the measurement year ended June 30, 2020, relative to the contributions of all participating TRS employers and the state during that period. At June 30, 2020, the employer's proportion was 0.005012%, which was a decrease of .000399% from its proportion measured as of June 30, 2018.

At June 30, 2020, the District had deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	O	Deferred utflows of esources	Deferred Inflow of Resources
Difference between expected and actual experience	\$	66,655	\$ -
Changes in assumptions		91,084	78,027
Net difference between projected and actual earnings in pension plan investments Changes in proportion and differences between District contributions and		6,439	-
proportionate share of contributions		84,597	1,765,626
Total deferred amounts to be recognized in pension expense in future periods		248,775	1,843,653
District's contributions subsequent to the measurement date	_	232,099	
Total	\$	480,874	\$ 1,843,653

Notes to Financial Statements

Note 5: Employee Retirement Systems (Continued)

\$232,099 reported as deferred outflows of resources related to pensions resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the reporting year ended June 30, 2021. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense in these reporting years:

	Net Deferred
	Outflows
	(Inflows) of
Year Ending June 30	Resources
2021	\$ (404,795)
2022	(557,679)
2023	(411,834)
2024	(198,037)
2025	(22,533)
Total	\$ <u>(1,594,878</u>)

Actuarial Assumptions

The total pension liability in the June 30, 2020 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation 2.50%

Salary increases varies by amount of service credit

Investment rate of return 7.00% net of pension plan investment expense, including inflation

In the June 30, 2019 actuarial valuation, mortality rates were based on the RP-2014 White Collar Table with appropriate adjustments for the TRS experience. The rates are based on a fully-generational basis using projection table MP-2017. In the June 30, 2018 actuarial valuation, mortality rates were also based on the RP-2014 White Collar Table with appropriate adjustments for TRS experience. The rates were used on a fully-generational basis using projection table MP-2014.

The long-term (20-year) expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class that were used by the actuary are summarized in the following table:

Notes to Financial Statements

Note 5: Employee Retirement Systems (Continued)

		Long-Term
	Target	Expected Real
Asset Class	Allocation	Rate of Return
U.S. equities large cap	15.0 %	6.3 %
U.S. equities small/mid cap	2.0 %	7.7 %
International equities developed	13.6 %	7.0 %
Emerging market equities	3.4 %	9.5 %
U.S. bonds core	8.0 %	2.2 %
U.S. bonds high yield	4.2 %	4.0 %
International debt developed	2.2 %	1.1 %
Emerging international debt	2.6 %	4.4 %
Real estate	16.0 %	5.2 %
Commodities (real return)	4.0 %	1.8 %
Hedge funds (absolute return)	14.0 %	4.1 %
Private Equity	<u>15.0</u> %	9.7 %
Total	100.0 %	

Discount Rate

At June 30, 2020, the discount rate used to measure the total pension liability was 7.0%, which was the same as the June 30, 2018 rate. The projection of cash flows used to determine the discount rate assumed that employee contributions, employer contributions, and State contributions will be made at the current statutorily-required rates.

Based on those assumptions, TRS's fiduciary net position at June 30, 2020 was projected to be available to make all projected future benefit payments of current active and inactive members and all benefit recipients. Tier I's liability is partially funded by Tier II members, as the Tier II member contribution is higher than the cost of Tier II benefits. Due to this subsidy, contributions from future members in excess of the service cost are also included in the determination of the discount rate. All projected future payments were covered, so the long-term expected rate of return on TRS investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the Employer's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The following presents the District's proportionate share of the net pension liability calculated using the discount rate of 7.00%, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.00%) or 1-percentage-point higher (8.00%) than the current rate:

				Current	
	19	% Decrease	Di	scount Rate	1% Increase
		(6.00%)		(7.00%)	(8.00%)
District's proportionate share of the net pension liability	\$	4,965,040	\$	4,064,999	\$ 3,324,986

Notes to Financial Statements

Note 5: Employee Retirement Systems (Continued)

Detailed information about the TRS's fiduciary net position as of June 30, 2020 is available in the separately issued TRS Comprehensive Annual Financial Report.

b. Illinois Municipal Retirement Fund (IMRF)

Plan Description and Benefits

Plan description – The District's defined benefit pension plan for regular employees provides retirement and disability benefits, post-retirement increases, and death benefits to plan members and beneficiaries. The employer's plan is managed by the Illinois Municipal Retirement Fund (IMRF), the administrator of an agent multi-employer public pension fund. A summary of IMRF's pension benefits is provided in the "Benefits Provided" section of this document. Details of all benefits are available from IMRF. Benefit provisions are established by statute and may only be changed by the General Assembly of the State of Illinois. IMRF issues a publicly available Comprehensive Annual Financial Report that includes financial statements, detailed information about the pension plan's fiduciary net position, and required supplementary information. The report is available for download at www.imrf.org.

Benefits provided - IMRF has three benefit plans. The vast majority of IMRF members participate in the Regular Plan (RP). The Sheriff's Law Enforcement Personnel (SLEP) plan is for sheriffs, deputy sheriffs, and selected police chiefs. Counties could adopt the Elected County Official (ECO) plan for officials elected prior to August 8, 2011 (the ECO plan was closed to new participants after that date).

All three IMRF benefit plans have two tiers. Employees hired before January 1, 2011, are eligible for Tier 1 benefits. Tier 1 employees are vested for pension benefits when they have at least eight years of qualifying service credit. Tier 1 employees who retire at age 55 (at reduced benefits) or after age 60 (at full benefits) with eight years of service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1-2/3% of the final rate of earnings for the first 15 years of service credit, plus 2% for each year of service credit after 15 years to a maximum of 75% of their final rate of earnings. Final rate of earnings is the highest total earnings during any consecutive 48 months within the last 10 years of service, divided by 48. Under Tier 1, the pension is increased by 3% of the original amount on January 1 every year after retirement.

Employees hired on or after January 1, 2011, are eligible for Tier 2 benefits. For Tier 2 employees, pension benefits vest after ten years of service. Participating employees who retire at age 62 (at reduced benefits) or after age 67 (at full benefits) with ten years of service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1-2/3% of the final rate of earnings for the first 15 years of service credit, plus 2% for each year of service credit after 15 years to a maximum of 75% of their final rate of earnings. Final rate of earnings is the highest total earnings during any 96 consecutive months within the last 10 years of service, divided by 96. Under Tier 2, the pension is increased on January 1 every year after retirement, upon reaching age 67, by the *lesser* of:

- 3% of the original pension amount, or
- 1/2 of the increase in the Consumer Price Index of the original pension amount.

Notes to Financial Statements

Note 5: Employee Retirement Systems (Continued)

Employees Covered by the Benefit Terms - At the December 31, 2019 valuation date, the following employees were covered by the benefit terms:

Inactive employees or beneficiaries currently receiving benefits	207
Inactive employees entitled to but not yet receiving benefits	224
Active employees	197
Total	628

Contributions - As set by statute, the employer's Regular Plan Members are required to contribute 4.5% of their annual covered salary. The statute requires employers to contribute the amount necessary, in addition to member contributions, to finance the retirement coverage of its own employees. The employer's annual contribution rate for calendar year 2019 was 9.51%. For the fiscal year ended June 30, 2020, the employer contributed \$645,964 to the plan. The employer also contributes for disability benefits, death benefits, and supplemental retirement benefits, all of which are pooled at the IMRF level. Contribution rates for disability and death benefits are set by IMRF's Board of Trustees, while the supplemental retirement benefits rate is set by statute.

Net Pension Liability - The employer's Net Pension Liability was measured as of December 31, 2019, and the total pension liability used to calculate the Net Pension Liability was determined by an annual actuarial valuation as of that date.

Actuarial assumptions – The following are the methods and assumptions used to determine total pension liability at December 31, 2019:

Actuarial cost method Entry Age Normal
Asset valuation method Market Value of Assets

Inflation 2.50%

Salary increases 3.35% to 14.25%, including inflation

Investment rate of return 7.25%

Retirement age Experience-based table of rates that are specific to the type of eligibility

condition. Last updated for the 2017 valuation pursuant to an experience

study of the period 2014-2016.

Mortality For non-disabled retirees, an IMRF specific mortality table was used with fully

generational projection scale MP-2017 (base year 2015). The IMRF specific rates were developed from the RP-2014 Blue Collar Health Annuitant Mortality Table with adjustments to match current IMRF experience. For disabled retirees, an IMRF specific mortality table was used with fully generational projection scale MP-2017 (base year 2015). The IMRF specific rates were developed from the RP-2014 Disabled Retirees Mortality Table applying the same adjustments that were applied for non-disabled lives. For active members, an IMRF specific mortality table was used with fully generational projection scale MP-2017 (base year 2015). The IMRF specific rates were developed from the RP-2014 Employee Mortality Table with

adjustments to match current IMRF experience.

Other information: Notes There were no benefit changes during the year.

Notes to Financial Statements

Note 5: Employee Retirement Systems (Continued)

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense, and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return to the target asset allocation percentage and adding expected inflation. The target allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table as of December 31, 2019:

		Long-Term
	Target	Expected Real
Asset Class	Allocation	Rate of Return
Equities	37.0 %	5.75 %
International equities	18.0 %	6.50 %
Fixed income	28.0 %	3.25 %
Real estate	7.0 %	5.20 %
Alternatives	9.0 %	3.20-8.50 %
Cash	1.0 %	1.85 %
Total	100.0 %	

Single Discount Rate

A Single Discount Rate of 7.25% was used to measure the total pension liability. The projection of cash flow used to determine this Single Discount Rate assumed that the plan members' contributions will be made at the current contribution rate, and that employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. The Single Discount Rate reflects:

- 1. The long-term expected rate of return on pension plan investments (during the period in which the fiduciary net position is projected to be sufficient to pay benefits), and
- 1. The tax-exempt municipal bond rate based on an index of 20-year general obligation bonds with an average AA credit rating (which is published by the Federal Reserve) as of the measurement date (to the extent that the contributions for use with the long-term expected rate of return are not met).

For the purpose of the most recent valuation, the expected rate of return on plan investments is 7.25%, the municipal bond rate is 2.75%, and the resulting single discount rate is 7.25%.

Sensitivity of the District's proportionate share of the net pension liability to changes in the discount rate - The following presents the plan's net pension liability, calculated using the single discount rate of 7.25 percent, as well as what the plan's net pension liability would be if it were calculated using a single discount rate that is 1% lower or 1% higher:

				Current	
	1	% Decrease	Di	scount Rate	1% Increase
		(6.25%)		(7.25%)	(8.25%)
Net pension liability	\$	5,614,732	\$	2,152,286	\$ (692,199)

2023	<u>(516,225)</u>
Total	\$ <u>(852,167)</u>

Aggregate Pension Amounts - At June 30, 2020, the District reported the following from all pension plans:

	TRS	IMRF	Total
Net pension liability/(asset)	\$ 4,064,999	\$ 2,152,286 \$	6,217,285
Deferred outflows of resources	480,874	718,177	1,199,051
Deferred inflows of resources	1,843,653	1,223,919	3,067,572
Pension expense	18,072,224	645,964	18,718,188

Note 6: Other Postemployment Benefits

a. Teacher Health Insurance Security (THIS)

Plan Description. The District participates in the THIS. The THIS is a cost-sharing, multiple-employer defined benefit post-employment healthcare plan (OPEB) that was established by the Illinois legislature for the benefit of Illinois public school teachers employed outside the City of Chicago. THIS members are retirees of public schools who were certified educators or administrators. Eligibility is currently limited to former full-time employees, and others who were not full-time employees that meet certain requirements, and their dependents. The State Employees Group Insurance Act of 1971 (5 ILCS 375/6.5) (SEGIA) establishes the eligibility and benefit provisions of the plan.

The THIS issues a publicly available financial report that can be obtained at the website of the Illinois Auditor General: https://www.auditor.illinois.gov/Audit-Report/ABC-List.asp. The current reports are listed under "Central Management Services"; prior reports are available under "Healthcare and Family Services".

Notes to Financial Statements

Note 6: Other Postemployment Benefits (Continued)

Benefits Provided

The THIS Fund provides medical, prescription, and behavioral health benefits, but it does not provide vision, dental or life insurance benefits to annuitants of the Teachers' Retirement System (TRS). Annuitants not enrolled in Medicare may participate in the state administered participating provider option plan or choose from several managed care options. Annuitants who were enrolled in Medicare Parts A and B may be eligible to enroll in Medicare Advantage Plans.

Amendments to the plan can be made only by legislative action with the Governor's approval. Effective July 1, 2012, in accordance with Executive Order 12-01, the plan is administered by the Illinois Department of Central Management Services (CMS) with the cooperation of TRS.

Contributions

The SEGIA requires that all active contributors to the TRS, who are not employees of a department, make contributions to the plan at a rate of 1.24% of salary and for every employer of a teacher to contribute an amount equal to 0.92% of each teacher's salary. Additionally, the SEGIA requires the State to match the employees' contribution on-behalf of the employer. The Department determines, by rule, the percentage required, which each year shall not exceed 105% of the percentage of salary actually required to be paid in the previous fiscal year. In addition, under the State Pension Funds Continuing Appropriations Act (40 ILCS 15/1.3), there is appropriated, on a continuing annual basis, from the General Revenue Fund, an account of the General Fund, to the State Comptroller for deposit in the THIS, an amount equal to the amount certified by the Board of Trustees of TRS as the estimated total amount of contributions to be paid under 5 ILCS 376/6.6(a) in that fiscal year.

The SEGIA requires that the Department's Director determine the rates and premiums of annuitants and dependent beneficiaries and establish the cost-sharing parameters, as well as funding. Member premiums are set by this statute, which provides for a subsidy of either 50% or 75%, depending upon member benefit choices. Dependents are eligible for coverage, at a rate of 100% of the cost of coverage.

On-behalf contributions to THIS. The state of Illinois makes employer retiree health insurance contributions on behalf of the District. State contributions are intended to match contributions to THIS Fund from active members which were 1.24% of pay during the year ended June 30, 2020. In the government-wide financial statements, the State of Illinois contributions also include a proportional allocation of the State's OPEB expense (based on the portion of the District's share of the expense compared to all School Districts in aggregate). For the year ended June 30, 2020, the District recognized revenue and expenses of \$2,613,031 in the governmental activities based on the economic resources measurement focus and revenues and expenditures in the amount of \$496,250 in the General Fund based on the current financial resources measurement focus for the State of Illinois contributions on behalf of the District.

Employer contributions to THIS Fund. The District also makes contributions to THIS Fund. The District THIS Fund contribution was 0.92% during the year ended June 30, 2020. For the year ended June 30, 2020, the District paid \$368,186 to the THIS Fund, which was 100 percent of the required contribution.

Notes to Financial Statements

Note 6: Other Postemployment Benefits (Continued)

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

At June 30, 2020, the District's reported a liability for its proportionate share of the net OPEB liability. The State's support and total are for disclosure purposes only. The amount recognized by the District as its proportionate share of the net OPEB liability, the related State support, and the total portion of the net OPEB liability that was associated with the District were as follows:

District's proportionate share of the net OPEB liability	\$ 44,066,140
State's proportionate share of the net OPEB liability associated with the District	<u>59,671,175</u>
Total	\$ <u>103,737,315</u>

The net OPEB liability was measured as of June 30, 2019, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of June 30, 2018 and rolled forward to June 30, 2019. The District's proportion of the net OPEB liability was based on the District's share of contributions to TRS for the measurement year ended June 30, 2019, relative to the projected contributions of all participating TRS employers and the state during that period. At June 30, 2019, the District's proportion was 0.159213%, which was a decrease of 0.004364% from its proportion measured as of June 30, 2018.

At June 30, 2020, the District reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	Deferred	Deferred
	Outflows of	Inflow of
	Resources	Resources
Difference between expected and actual experience	\$ -	\$ 731,243
Changes in assumptions	16,706	5,051,415
Net difference between projected and actual earnings in OPEB plan investments	-	1,443
Changes in proportion and differences between District contributions and		
proportionate share of contributions	101	2,211,713
Total deferred amounts to be recognized in OPEB expense in future periods	16,807	7,995,814
District's contributions subsequent to the measurement date	368,186	
Total	\$ <u>384,993</u>	\$ 7,995,814

Notes to Financial Statements

Note 6: Other Postemployment Benefits (Continued)

\$319,049 reported as deferred outflows of resources related to OPEB resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net OPEB liability in the year ended June 30, 2021. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

	Net Deferred
	Outflows
	(Inflows) of
Year Ending June 30	Resources
2021	\$ (1,514,499)
2022	(1,514,499)
2023	(1,514,386)
2024	(1,514,149)
2025	(1,138,399)
2026	(473,439)
2027	(240,028)
2028	<u>(69,608)</u>
Total	\$ <u>(7,979,007</u>)

Actuarial Valuation Method

The actuarial valuation was based on the Entry Age Normal cost method. Under this method, the normal cost and actuarial accrued liability are directly proportional to the employee's salary. The normal cost rate equals the present value of future benefits at entry age divided by the present value of future salary at entry age. The normal cost at the member's attained age equals the normal cost rate at entry age multiplied by the salary at attained age. The actuarial accrued liability equals the present value of benefits at attained age less present value of future salaries at attained age multiplied by normal cost rate at entry age.

Actuarial Assumptions.

The total OPEB liability in the June 30, 2019 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.50%
Salary increases	Depends on service and ranges from 9.50% at 1 year of service to 4.00% at 20 or more years of service. Salary increase includes a 3.25% wage inflation assumption
Investment rate of return	0.00%, net of OPEB plan investment expense, including inflation
Healthcare cost trend rates	Actual trend used for fiscal year 2019. For fiscal years on and after 2020, trend starts at 8.00% and 9.00% for non-Medicare costs and post-Medicare costs, respectively, and gradually decreases to an ultimate trend of 4.50%. Additional trend rate of 0.31% is added to non-Medicare costs on and after 2022 to account for Excise Tax.

Notes to Financial Statements

Note 6: Other Postemployment Benefits (Continued)

Mortality rates for retirement and beneficiary annuitants were based on the RP-2014 White Collar Annuitant Mortality Table, adjusted for TRS experience. For disabled annuitants mortality rates were based on the RP-Disabled Annuitant table. Mortality rates for pre-retirement were based on the RP-2014 White Collar Table. All tables reflect future mortality improvements using Projection Scale MP-2017.

The actuarial assumptions used in the June 30, 2018 valuation were based on the results of an actuarial experience study for the period July 1, 2014 through June 30, 2017.

Discount Rate

Projected benefit payments were discounted to their actuarial present value using a Single Discount Rate that reflects (1) a long-term expected rate of return on OPEB plan investments (to the extent that the plan's fiduciary net position is projected to be sufficient to pay benefits), and (2) tax-exempt municipal bond rate based on an index of 20-year general obligation bond with an average AA credit rating as of the measurement date (to the extent that the contributions for use with the long-term expected rate of return are not met). Since the THIS is financed on a pay-as-you-go basis, a discount rate consistent with the 20-year general obligation bond index has been selected. The discount rates are 3.62% as of June 30, 2018, and 3.13% as of June 30, 2019. The decrease in the single discount rate from 3.62% to 3.13% caused the total OPEB liability to increase by approximately \$2,296 million from 2018 to 2019.

Sensitivity of the Employer's Proportionate Share of the Net OPEB Liability to Changes in the Discount Rate and Healthcare Cost Trend Rate

The following presents the District's proportionate share of the net OPEB liability calculated using the discount rate of 3.13%, as well as what the District's proportionate share of the net OPEB liability would be if it were calculated using a discount rate that is 1-percentage-point lower (2.13%) or 1-percentage-point higher (4.13%) than the current rate:

		Current	
	1% Decrease	Discount Rate	1% Increase
	2.13%	3.13%	4.13%
District's proportionate share of the net OPEB liability	\$ 52,983,492	\$ 44,066,140	\$ 37,023,343

The following presents the District's proportionate share of the net OPEB liability would be if it were calculated using the healthcare cost trend rate, as well as what the District's proportionate share of the net OPEB liability would be if it were calculated using a discount rate that is 1-percentage-point lower or 1-percentage-point higher than the current rate. They key trend rates are 8.00% in 2020 decreasing to an ultimate trend rate of 4.81% in 2027 for non-Medicare coverage, and 9.00% decreasing to an ultimate trend rate of 4.50% in 2027 for Medicare coverage:

- b) One percentage point increase in healthcare trend rates are 9.00% in 2020 decreasing to an ultimate trend rate of 5.81% in 2027, for non-Medicare coverage, and 10.00% in 2020 decreasing to an ultimate trend rate of 5.50% in 2027 for Medicare coverage.

b. Postemployment Healthcare Plan

Plan Description:

The District administers a single-employer defined benefit healthcare plan, the "Retiree Healthcare benefit Program" (the Plan). The plan provides healthcare insurance for eligible retirees and their dependents through the District's group health insurance plan, which covers both active and retired members. Benefit provisions are established by state law and through negotiations between the District and the unions representing District employees, which are renegotiated each bargaining period. As of June 30, 2020, all retirees are eligible for benefits pre-and post-Medicare. The plan does not issue a stand-alone financial report.

Benefits Provided

Medical Coverage - Certified Administrators & Teachers - The District pays the single medical premium for TRIP program coverage. The District will pay the amount for the type of plan in which the individual was enrolled as an active employee. The District pays 90% for the PPO option and 100% for the HMO option. Payments continue until the earlier of 5 years or attainment of Medicare eligibility.

Medical Coverage - IMRF Employees - The District pays the entire premium for single medical coverage. The subsidy continues for 5 years after retirement. Spouses of retirees may elect coverage on a pay-all basis.

Dental Coverage - Certified Administrators & Teachers - None.

Dental Coverage - IMRF Employees - The District pays the entire premium for single dental coverage. The subsidy continues for 5 years after retirement. Spouses or retirees may elect coverage on a pay-all basis.

Notes to Financial Statements

Note 6: Other Postemployment Benefits (Continued)

Funding Policy

All plan funding is done on a pay-as-you go basis. Teachers hired prior to January 1, 2011 are eligible at the earliest of (1) age 55 with 20 years of service; (2) age 60 with 10 years of service; or (3) age 62 with 5 years of service. Teachers hired after January 1, 2011 are eligible at the earliest of (1) age 62 with 10 years of service (reduced pension); (2) age 67 with 10 years of service (full pension). Non-teachers (classified and support staff) are eligible at age 55 with 15 years of full-time service with the District. Surviving spouses of support staff are eligible to remain on the District's plan until age 65.

For the fiscal year ended June 30, 2020, the District's contributions and the total retirees contributions were not determined.

Employees Covered by Benefit Terms

As of June 30, 2020, the following employees were covered by the benefit terms:

Active employees	137
Inactive employees curently receiving benefits	2
Total	139

Actuarial Assumptions

The following are the methods and assumptions used to determine the total OPEB liability at June 30, 2020:

Valuation date

June 30, 2019

Measurement date

June 30, 2020

Actuarial cost method

Discount rate

2,66%

Discount rate 2.66%
Inflation rate 3.00%
Salary rate increase 4.00%
Funded ratio 0.00%
Covered payroll 4636,961
Net OPEB liability as a ratio of covered payroll 9.00%

Discount Rate

The District does not have a dedicated trust to pay the benefits of the Plan. Per GASB 75, this discount rate is a yield or index rate for 20-year, tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher (or equivalent quality on another rating scale). The discount rate used is 2.66%, which is the S&P Municipal Bond 20 Year High-Grade Rate Index as of June 30, 2020.

Thereafter	(5,617)		
Total	\$(84,102)		

Notes to Financial Statements

Note 7: Risk Management

The District has purchased insurance from private insurance companies. Risks covered include general liability, workers compensation and other. Premiums have been displayed as expenditures in the appropriate funds. The District also operates a self-insurance program for medical coverage for employees (see Note 8). No significant reductions in insurance coverage have occurred from the prior year, and no settlements have been made in the last three years that exceeded any insurance coverage.

Note 8: Self Insurance Plan

The District maintains a self-insurance plan to provide medical insurance to its employees. An outside administrator administers claims for a fixed fee per enrolled employee. The District makes periodic payments to an escrow account established by the administrator. The plan administrator pays employee claims from this escrow account and requires the District to cover any deficiencies. The District liability is limited by private insurance that provides a \$130,000 specific stop loss and a maximum aggregate stop loss of \$12,061,267. A liability of \$1,277,325 has been recorded as estimated claims incurred but not yet reported. Claims incurred but not yet reported include known loss events that are expected to later be presented as claims, unknown loss events that are expected to become claims, and expected future development on claims already reported.

A summary of the changes in the District's claims liability is as follows:

	Fiscal Year	Fiscal Year
	Ended	Ended
	June 30, 2020	June 30, 2019
Claims liability at July 1	\$ 1,158,658	\$ 1,377,925
Current year claims and changes in estimates	6,760,966	7,840,080
Claim payments	(6,642,299)	(8,059,347)
Claims liability at June 30	\$ <u>1,277,325</u>	\$ 1,158,658

Note 9: Collective Liability Insurance Cooperative (CLIC)

The District is a member of CLIC, which has been formed to provide casualty, workman's compensation, property and liability protections and to administer some or all insurance coverage's and protection other than health, life and accident coverage's procedure by the member districts. It is intended, by the creation of CLIC to allow a member District to equalize annual functions in insurance costs by establishing a program whereby reserves may be created and temporary deficits of individual Districts covered and to ultimately equalize the risks and stabilize the costs of providing casualty, property and liability protections. If, during any fiscal year, the funds on hand in account of CLIC are not sufficient to pay expenses of administration, the Board of Directors shall require supplementary payment from all members. Such payment shall be made in the same proportion as prior payments during that year to CLIC. Complete financial statements for CLIC can be obtained from its administrator, 1441 Lake Street, Libertyville, IL 60048.

Notes to Financial Statements

Note 10: Interfund Transfers

The District made transfers as follows during the year ending June 30, 2020:

Transfer From	Transfer To	Amount
General Fund - Educational Account General Fund - Operations and Maintenance General Fund - Operations and Maintenance		\$ 170,856 144,000 <u>2,000,000</u>
	Total Transfers	\$ <u>2,314,856</u>

Transfers from the General Fund's Educational Account to the Debt Service Fund were made to provide funds for debt service payments on debt certificates and capital leases. Transfers from the General Fund's Operations and Maintenance Account to the Debt Service Fund were made to provide funds for debt service payments on general obligation bonds. Transfers from the General Fund's Operations and Maintenance Account to the Capital Projects Fund were made to provide funds for capital projects.

Note 11: Prior Period Adjustment

The District recorded the following prior period adjustment during the year ended June 30, 2020:

	Internal
Year Ended June 30, 2020	Service Fund General Fund
To establish the Internal Service Fund	\$ 2,089,867 \$ (2,089,867)
Total	\$ 2,089,867 \$ (2,089,867)

The District established an Internal Service Fund to account for the transactions related to the District's health care activities. Those activities were previously accounted for in the General Fund's Educational Account.

Notes to Schedule

Valuation date: Actuarially determined contribution rates are calculated as of

December 31 of each year, which are 12 months prior to the beginning of the fiscal year in which contributions are reported.

Methods and assumptions used to determine contribution rates

Actuarial cost method Aggregate entry age normal Amortization method Level percent of pay, closed

Remaining amortization period 24-year closed period

Asset valuation method 5-year smoothed market; 20% corridor

Wage growth 3.25% Inflation 2.50%

Salary increases 3.35% to 14.25%, including inflation

Investment rate of return 7.50%

Retirement age Experience-based table of rates that are specific to the type of

eligibility condition. Last updated for the 2017 valuation pursuant

to an experience study of the period 2014 - 2016.

Mortality For non-disabled retirees, an IMRF specific mortality table was used

with fully generational projection scale MP-2017 (base year 2015). The IMRF specific rates were developed from the RP-2014 Blue Collar Health Annuitant Mortality Table with adjustments to match current IMRF experience. For disabled retirees, an IMRF specific mortality table was used with fully generational projection scale MP-2017 (base year 2015). The IMRF specific rates were developed from the RP-2014 Disabled Retirees Mortality Table applying the same adjustment that were applied for non-disabled lives. For active members, an IMRF specific mortality table was used with fully generational projection scale MP-2017 (base year 2015). The IMRF specific rates were developed from the RP-2014 Employee Mortality Table with adjustments to match current IMRF

experience.

Notes to Schedule

Changes of assumptions

For the 2019, 2018, 2017, and 2016 measurement years, the assumed investment rate of return was of 7.0 percent, including an inflation rate of 2.5 percent and a real return of 4.5 percent. Salary increases were assumed to vary by service credit, but the rates of increase in the 2018 measurement year were slightly higher.

For the 2015 measurement year, the assumed investment rate of return was 7.5 percent, including an inflation rate of 3.0 percent and a real return of 4.5 percent. Salary increases were assumed to vary by service credit. Various other changes in assumptions were adopted based on the experience analysis for the three-year period ending June 30, 2014.

For the 2014 measurement year, the assumed investment rate of return was also 7.5 percent, including an inflation rate of 3.0 percent and a real return of 4.5 percent. However, salary increases were assumed to vary by age.

^{*} Valuation was as of the prior fiscal-year end.

Notes to Required Supplementary Required Information

Budgetary Data

Annual budgets for all Governmental Funds are adopted on the modified accrual basis, consistent with generally accepted accounting principles (GAAP) for local governments.

The Board of Education follows these procedures in establishing the budgetary data reflected in the financial statements:

- ➤ The Administration submits to the Board of Education a proposed operating budget for the fiscal year commencing July 1. The operating budget includes proposed expenditures and the means of financing them.
- Public hearings are conducted and the proposed budget is available for inspection to obtain taxpayer comments.
- Prior to September 30 the budget is legally adopted through passage of a resolution. On or before the last Tuesday in December, a tax levy ordinance is filed with the County Clerk to obtain tax revenues.
- ➤ The Superintendent is authorized to transfer up to 10% of the total budget between departments within any fund without Board of Education approval; however, any revisions that alter the total expenditures of any fund must be approved by the Board of Education following the public hearing process mandated by law. The budget was adopted on September 16, 2019.
- Formal budgetary integration is employed as a management control device during the year for the General Fund, Special Revenue Funds, the Debt Service Fund, and the Capital Projects Fund.
- The District has adopted a legal budget for all its Governmental Funds. The legal level of budgetary control is at the individual fund level, therefore, actual expenditures for the governmental funds may not legally exceed the total budgeted for such funds. However, under the State Budget Act expenditures may exceed the budget if additional resources are available to finance such expenditures.
- The budget (all appropriations) lapses at the end of each fiscal year.
- ➤ The District's actual expenditures in the Debt Service Fund and Municipal Retirement/Social Security Fund, exceeded budgeted expenditures. Additional sources are available to finance these excess expenditures as allowed under the State Budget Act.

Fund	Actual		Budget		Excess	
Debt Service Fund	\$	9,177,291	\$ 9,171,991	\$	5,300	
Municipal Retirement/Social Security Fund	\$	1,660,496	\$ 1,620,006	\$	40,490

Special Revenue Funds

To account for proceeds from specific revenue sources which are designated to finance expenditures for specific purposes, the District maintains the following Special Revenue Funds:

Transportation Fund - To account for activity relating to student transportation to and from school.

Municipal Retirement/Social Security Fund - To account for the District's portion of FICA and pension contributions to the Illinois Municipal Retirement Fund.

STATISTICAL SECTION (UNAUDITED)

This part of the Government's comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the government's overall financial health.

Financial Trends

These schedules contain trend information to help the reader understand how the District's financial performance and well being have changed over time.

Revenue Capacity

These schedules contain information to help the reader assess the District's most significant local revenue source, the property tax.

Debt Capacity

These schedules present information to help the reader assess the affordability of the District's current levels of outstanding debt and the District's ability to issue additional debt in the future.

Demographic and Economic Information

These schedules offer demographic and economic indicators to help the reader understand the environment within which the District's financial activities take place.

Operating Information

These schedules contain service and infrastructure data to help the reader understand how the information in the District's financial report relates to the services the District provides and the activities it performs.
