

# DITCH THE PLASTIC AND SWITCH TO CLOTH BAGS!

Cleaner earth. Cleaner water. Cleaner cabinets!

## MORE REASONS BELOW

Tell us your thoughts  
about single-use  
plastics and more!

**1.** Plastic bag production uses oil and natural gas.

**2.** Wildlife is put in danger when plastic bags pollute their habitat.

**3.** Plastic bags are an environmental nuisance and take a very long time to break down.

**4.** Cloth bags are more durable and hold more products so you have less to carry!

## TIPS FOR THE SWITCH

1. Some trips require no bag at all. Just say no bag, please!
2. Keep a few reusable bags in your car.
3. Find one that folds up for your purse or backpack.
4. Too many reusable bags piling up? Use them to wrap gifts!
5. If you forget, no sweat! Just reuse that plastic bag!
